Banijay

Year ended December 31, 2025

Statutory auditor's report on the consolidated financial statements

To the President,

Opinion

In our capacity as statutory auditor of Banijay and in accordance with your request, we have audited the consolidated financial statements of Banijay and its subsidiaries (the Group), which comprise the consolidated balance sheet as at December 31, 2025 the consolidated statement of income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year ended December 31, 2025, and the notes to the consolidated financial statements, which comprise material accounting policy information for the year ended December 31, 2025.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2025 and its consolidated financial performance and consolidated cash flows for the period then ended, in accordance with International Financial Reporting Standards as adopted by the European Union.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Group in accordance with the *International Code of Ethics for Professional Accountants (including International Independence Standards)* (IESBA Code) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in France, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union, and for such internal control as Management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, Management is responsible for assessing the Entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Statutory auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit conducted in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance, in particular, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identified during our audit.

Restriction on Use of our Report

This report is addressed to the President of the Entity. We assume or take no responsibility towards third parties to whom this report is distributed or made available.

This report is governed by French law. The courts of France shall have exclusive jurisdiction over any claim or dispute resulting from the engagement letter or this report or any related matters. Each party irrevocably waives its right to oppose any action being brought before French courts, to claim that the action is being brought before an illegitimate court or that the courts have no jurisdiction.

Paris-La Défense, February 18, 2026

The Statutory Auditor
ERNST & YOUNG et Autres

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Note 1 BUSINESS PRESENTATION

1.1 Presentation of the business

Banijay S.A.S. (the “Company”) is a limited liability company domiciled in France with its head office located at 8, rue François 1er – 75008 Paris (France).

Banijay S.A.S has a share capital of €106,533,471 (106,533,471 shares of €1.0 each) and is the parent entity of the group consolidated in this document. Banijay Holding S.A.S. is the direct parent of Banijay S.A.S. LOV Group Invest S.A.S. is the ultimate parent of the group. Banijay Group N.V., listed vehicle in Amsterdam, is one of the intermediate holdings.

Banijay is consolidated in the financial statements of Banijay Group N.V. and LOV Group Invest S.A.S.

Banijay operates in the production of audiovisual programs, distribution and marketing of intellectual property rights in relation to audiovisual, digital contents and/or formats and the production of live events: the **content production & distribution** business.

The consolidated financial statements present the financial situation of the Company and its subsidiaries (the “Group”). They are denominated in Euro.

Banijay’s annual reporting date for its financial statements is December 31.

1.2 Seasonal activity

Content production & distribution business operations can be impacted by the timing of delivery of both scripted and non-scripted productions (and thus affecting the level of revenue and work in progress). The distribution activity tends to present a more important seasonality in the last quarter of the year and is also impacted by the timing of recoupment of its distribution advances. The live events production activity can be impacted by the seasonality of major events such as international ceremonies (Olympics, FIFA World Cup).

Note 2 BASIS OF PREPARATION

2.1 Statement of compliance

The consolidated financial statements for the years ended on the 31 December 2025 were established in accordance with the International Accounting Standards (IFRS) as adopted by the European Union and available on the European Commission website.

These standards include International Financial Reporting Standards and International Accounting Standards (IAS), as well as the related International Financial Reporting Interpretations Committee (IFRIC) interpretations.

The consolidated financial statements are presented in euros. Unless otherwise indicated, all amounts are rounded to the nearest hundred thousand euros, rounding differences may occur.

The consolidated financial statements of Banijay for the period ended December 31, 2025 were closed by the Chairman in order to be presented to the Board of Directors of Banijay Group N.V. on February 17th, 2026.

The financial statements have been prepared on the historical cost basis, except for the revaluation of financial instruments that are measured at fair value at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2 Share-based payments, leasing transactions that are within the scope of IFRS 16 Leases, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in IAS 2 Inventories or value in use in IAS 36 Impairment of Assets.

The principal accounting policies adopted are set out below.

2.1.1 Standards effective for fiscal years beginning on or after 1 January 2025

The application of standards, amendments and interpretations that took effect on January 1, 2025 did not have a material impact on the Group's financial statements.

2.1.2 Standards issued but not yet effective

Standards, amendments and interpretation published by the IASB by not yet adopted by the European Union

Certain new accounting standards and amendments have been published by the IASB but are not yet adopted by the European Union, and have not been early adopted of which:

		Expected dates of adoption
Amendments to IFRS 9 and IFRS 7	Amendments to the Classification and Measurement of Financial Instruments	January 1, 2026
IFRS 18	Presentation and Disclosure in Financial Statements	January 1, 2027
IFRS 19	Subsidiaries without Public Accountability: Disclosures	January 1, 2027

The impact of the application of IFRS 18 Presentation and Disclosure in Financial Statements – for which application is mandatory with effect from January 1, 2027 – is being assessed.

The group does not expect the application of the other standards and amendments set out above to have a material impact.

2.2 Significant assumptions and estimates

The preparation of these consolidated financial statements requires the Group's management to make assumptions and estimates that may affect the application of the accounting methods, and the reported amounts of assets and liabilities, as well as certain income and expenses for the period. These assumptions and estimates relate mainly to:

- i) the determination of the recoverable value of cash-generating units and subsequent impairment test of the goodwill resulting from business combination;
- ii) the calculation of debt and net costs related to earn outs on acquisitions;
- iii) the estimate of debt and net costs resulting from put options in favor of minority shareholders;
- iv) the estimate of liabilities and net costs related to employee long-term incentives (equity-settled or cash settled plan) and employee benefits resulting from a business acquisition ; and
- v) the amount of provisions for risks and other provisions in relation to the group's activity.

Actual results may differ from these estimates under different assumptions or conditions.

2.3 Main accounting policies

The accounting methods described were consistently applied to all the reporting periods presented in the consolidated financial statements.

2.3.1 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries) made up to 31 December each year. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, the results of subsidiaries acquired or disposed of during the year are included in profit or loss from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of the subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between the members of the Group are eliminated on consolidation.

Non-controlling interests in subsidiaries are identified separately from the Group's equity therein. Those interests of non-controlling shareholders that represent ownership interests entitling their holders to a proportionate share of net assets upon liquidation may initially be measured at fair value or at the non-controlling interests' proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement is made on an acquisition-by-acquisition basis. Other non-controlling interests are initially measured at fair value. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity.

Changes in the Group's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amount of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to the owners of the Company.

When the Group loses control of a subsidiary, the gain or loss on disposal recognized in profit or loss is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), less liabilities of the subsidiary and any non-controlling interests. All amounts previously recognized in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or

liabilities of the subsidiary (i.e., reclassified to profit or loss or transferred to another category of equity as required/permitted by applicable IFRS Standards). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as fair value on initial recognition for subsequent accounting under IFRS 9 Financial Instruments when applicable, or the cost on initial recognition of an investment in an associate or a joint venture.

2.3.2 Business combinations

Business combinations are accounted for under the acquisition method as published in IFRS 3 when the acquired set of activities and assets meets the definition of a business and control is transferred to the Company.

In determining whether a particular set of activities and assets is a business, the Company assesses whether the set of assets and activities acquired includes, at a minimum, an input and substantive process and whether the acquired set has the ability to produce outputs.

At acquisition date, identifiable assets and liabilities are included in the consolidated financial statements at fair value. The difference between the acquisition price and the fair value of identifiable assets and liabilities is recognized in the Goodwill caption. The purchase price allocation shall be performed within 12 months after the acquisition date. The costs directly attributable to business combinations are recognized in expenses for the period during which they occurred.

For acquisitions in non-controlling interests, the Group can choose, at each acquisition's date, whether it evaluates the non-controlling interest at fair value ("full goodwill") or at the percentage of shares of identifiable assets and liabilities it possesses.

According to IFRS 10, acquisitions in non-controlling interests and disposals without loss of control are considered as transactions between shareholders. The difference between the acquisition price of the additional shares and the related share of equity is recognized in Shareholders' equity (Group share). The costs attributable to such transactions as well as their related fiscal impacts are booked in equity.

The cash flows related to transactions with shareholders are presented in Cash flow from investing activities in the consolidated statements of Cash Flows.

When the consideration transferred by the Group in a business combination includes a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

This liability is re-measured at each reporting period end in accordance with the contractual arrangements (at fair value or at present value if fixed price) and, in the absence of any guidance provided by IFRS, with a counterparty in net finance costs.

The Group identifies the transactions that are qualified as separate transactions in accordance with IFRS 3, especially transactions that remunerate former Shareholders of the acquiree for future services. Those transactions are accounted for in accordance with the relevant IFRS (refer to note 2.3.21).

2.3.3 Foreign currency translation of the financial statements of entities outside the eurozone

The consolidated financial statements are presented in euros; the financial statements of entities presented in a different functional currency are translated into euros:

- at the period-end exchange rates for balance sheet items;
- at the average rates for the period for income statement items.

Translation adjustments arising from the application of these rates are recorded in equity under “Foreign currency translation adjustment”.

2.3.4 Current / non-current distinction

According to IAS 1 – presentation of financial statements, the assets and liabilities are classified as current when their recoverability or their payments is expected no later than 12 months from the closing date, except for deferred taxes which are shown as non-current assets and liabilities.

2.3.5 Goodwill

Goodwill is initially recognized and measured as set out above.

Goodwill is not amortized but is reviewed for impairment at least annually. For the purpose of impairment testing, goodwill is allocated to each of the Group’s Cash-Generating Units (or groups of cash-generating units), hereafter “**the CGUs**”, expected to benefit from the synergies of the combination.

There are four CGUs allocated as follows according to the two operating segments presented in note 2.3.24.

- The **Production segment** is analyzed through three geographical CGUs:
 - CGU 1: The United Kingdom – The USA, the Latin America region (LATAM) – Australia, New Zealand – India – Israel
 - CGU 2: The Nordic countries – Netherlands – Belgium – Germany – Poland
 - CGU 3: France – Spain – Italy – Portugal – United Arab Emirates – Saudi Arabia
- The **Distribution segment** corresponds to one CGU:
 - CGU 4: Distribution / Rights

Cash-generating units to which goodwill has been allocated are tested for impairment annually, or each time events or changes in the economic environment may indicate a risk of impairment.

The recoverable value of the CGU is determined as the higher between the value in use, determined by discounting future cash flows that are derived from plans presented by each sub-groups and approved by the Group’s management (method known as “discounted cash flows” or “DCF”) and the fair value (less the cost of disposal) determined based on market factors (stock market prices, comparison with similar listed companies, comparison with the value assigned to similar assets or companies during recent acquisition transactions).

If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other

assets of the unit pro-rata based on the carrying amount of each asset in the unit. An impairment loss recognized for goodwill cannot be reversed in subsequent periods.

The accounting policy for goodwill arising on the acquisition of an associate or a joint venture is described below.

2.3.6 Investments in associates and joint ventures

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and net assets (or net liabilities) of associates or joint ventures are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment is classified as held for sale, in which case it is accounted for in accordance with IFRS 5.

Under the equity method, an investment in an associate or a joint venture is recognized initially in the consolidated statement of financial position at cost and adjusted thereafter to recognize the Group's share of the profit or loss and other comprehensive income of the associate or joint venture.

On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognized as goodwill, which is included within the carrying amount of the investment.

2.3.7 Intangible assets

Intangible assets with finite useful lives are initially recognized at cost, except for those acquired in a business combination, which are recognized at fair value.

Intangible assets presented in the consolidated statement of financial position comprise:

- Format rights acquired from a third party or through business combinations. They can be commercially exploited either through internal use, i.e., the production of television programs by a Group entity, or through external use, i.e., the sale or licensing to third parties;
- Audiovisual rights, or catalogues, referred to as the Group's library of finished programs, whether acquired or internally developed, for which the Group has legal right to distribute and to receive revenue from the distribution of the rights;
- Production contracts or client contracts, acquired through business combinations, to produce television programs, TV movies, or cinematic movies;
- Fictions in progress which are the costs incurred for fiction productions that are not yet finalized and not delivered to the client at the closing date, and for which i) the Group retains the intellectual property ("IP") and ii) the Group expects significant further IP revenue;
- Rights for the movie adaptation of books;

- The rights to use a brand (applicable in some situation with JV's)
- Other intangible assets such as other administrative software.

Following initial recognition, and except indicated otherwise, intangible assets are carried out at cost less accumulated amortization and accumulated impairment losses. They are amortized on a straight-line basis based on the useful life of the asset.

The method and period of amortization are reviewed at least each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset result in changes in the method or period of amortization.

	Method	Duration
Audiovisual Rights ⁽¹⁾	Based on revenue	N/A
Catalogue & formats	Straight-line	6 to 10 years
Client contracts	Straight-line	Contract's duration
Software assets	Straight-line	1 to 5 years
Right to use a brand	Straight-line	Contract's duration

⁽¹⁾ Audiovisual rights such as distribution advances are amortized on an accelerated basis following the decline in the net value of the asset after initial broadcasting of the asset by the clients.

2.3.8 Software

Software (excluding SaaS arrangements)

Internal and external costs directly incurred in the purchase or development of software are recognized as intangible assets, including subsequent improvements, when it is probable that they will generate future economic benefits for the Group. Software is amortized by the straight-line method over periods ranging from, barring exceptions, one to 5 years.

Software as a Service (SaaS) arrangements

A SaaS arrangement allows an entity to access, using an Internet connection and for a specified period of time, software functions hosted on infrastructure operated by an external provider. If the Group does not control a SaaS solution, the related development costs (external and internal) are recognized as follows: (a) as an expense as incurred for internal costs and the costs of an integrator not related to the SaaS publisher, and (b) as an expense over the term of the SaaS arrangement for the costs of the SaaS publisher or its subcontractor. If the Group controls a SaaS solution, costs are capitalized if they meet the IAS 38 criteria, otherwise they are expensed as incurred.

2.3.9 Property, plant and equipment

Property, plant and equipment are recorded at their acquisition cost and then carried at historical cost less accumulated depreciation and impairment losses. Acquisition cost includes costs directly attributable to transporting an asset to its physical location and preparing it for its operational use, and the collection of property, plant and equipment, and the rehabilitation of the physical location resulting from the incurred obligation.

Depreciation is calculated on a straight-line basis over the useful life of such fixed assets. The residual value, the useful life and depreciation methods of the fixed assets are reviewed and adjusted, if necessary, at each financial year-end.

Lands and tangible assets in progress are not depreciated. When tangible assets in progress are ready for its intended use, they are transferred to the relevant category and depreciation starts. When property, plant and equipment include significant components with different useful lives, they are recorded and depreciated separately.

Depreciation is recognized on the following basis:

	Method	Duration
Technical facilities and equipment	Straight-line	3 to 20 years
Office furniture and equipment	Straight-line	3 to 5 years
Constructions	Straight-line	15 to 40 years
Other fixed assets	Straight-line	3 to 10 years

2.3.10 Lease

Right-of-use assets

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain Ownership of the leased asset at the end of the lease term, the recognized right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

Lease liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognized as expense in the period on which the event or condition that triggers the payment occurs. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily

determinable. The interest used at the inception of the contract will be the same for the whole life of the lease term aside if there are modifications in contract terms such as a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

Significant judgement in determining the lease term of contracts with renewal options

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised by the Group, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has the option, under some of its real estate leases to lease the assets for additional terms of several years. The Group applies judgement in evaluating whether it is reasonably certain to exercise the option to renew. That is, it considers all relevant factors that create an economic incentive for it to exercise the renewal. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew (e.g., a change in business strategy).

2.3.11 Impairment of property, plant and equipment, intangible assets (other than goodwill)

The recoverable amount of intangible assets and tangible assets is tested for impairment as soon as external or internal signs of impairment losses exist, such as sector ratio declining, strong overall decrease in the business relating to the cash generating unit, fall in activity with a major customer of the cash-generating unit, change in betting and gaming licenses conditions (including government taxation policies) and loss/non-renewal of licenses. External or internal signs of impairment are reviewed at each closing date.

The recoverable value of the assets to which it is possible to directly attribute independent cash inflows is assessed on a stand-alone basis. The other assets are grouped within the CGU to which they belong in order to estimate their value-in-use.

The value-in-use of an asset or a CGU is measured as outlined in note 2.3.5.

The value of the asset is tested for impairment to determine whether there is an impairment loss. If appropriate, an impairment loss is recorded for the portion of the net book value of the asset exceeding the recoverable value.

Where an impairment loss is recognized, it is accounted for directly in the statement of profit or loss. The value of assets, other than goodwill, for which an impairment loss has been recorded, is reviewed at each closing date for the purposes of reversing the impairment loss, if necessary. Where a reversal occurs, it is recorded as profit or loss. In such a case, the book value of the asset can be increased up to its recoverable value. After reversing the impairment loss, the book value cannot exceed the carrying amount that would have been determined, net of amortization or depreciation, had no impairment loss been recognized for the asset in prior years.

2.3.12 Production - work in progress

Inventories relating to work in progress are valued at production cost.

For the production of audiovisual programs, they represent outstanding production costs, excluding fictions for which (i) the Group retains a part of the Intellectual Property (IP) and (ii) expects significant IP revenue, that are not finalized and not delivered to the client at closing date.

For the production of live events program, the inventories relating to work in progress represent outstanding production costs of an event not yet delivered to the client at the closing date.

In the case production losses are anticipated, a provision for losses on onerous contract is accounted for, after inventories have been written off.

2.3.13 Financial instruments and equity instruments

Financial instruments consist of:

- Financial assets, including other non-current assets, trade receivables, other current assets, and cash and cash equivalents;
- Financial liabilities, including securities issued that are not qualified as equity instruments, long and short-term borrowings and bank overdrafts, accounts and notes payable and other current and non-current liabilities; and
- Derivative instruments.

Financial instruments (assets and liabilities) are recorded in the consolidated statement of financial position at the fair value on initial recognition, plus in the case of an asset that is not subsequently recognized at fair value through profit or loss, transaction costs are directly attributable to the acquisition of that asset. They are subsequently measured at either fair value (result or other comprehensive income) or amortized costs, depending on their nature. Amortized cost corresponds to the initial carrying amount (net of transaction costs), plus interest calculated using the effective interest rate, less cash outflows (coupon interest payments and repayments of principal and redemption premiums where applicable). Accrued interest (income and expense) is not recorded based on the financial instrument's nominal interest rate but based on its effective interest rate. The fair value of a financial instrument is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

2.3.13.1 Financial assets

The classification of a financial asset in each of these categories depends on the management model applied by the enterprise and the characteristics of its contractual cash flows. Transactions relating to financial assets are recorded at settlement date.

Debt instrument at amortized costs

These financial assets are initially recognized at their fair value to which are added directly attributable transaction costs and, then at amortized cost at each closing date, applying the effective interest rate method. This category of assets includes trade receivables and other debtors, loans and deposits, receivables attached to participating

interests, cash and loans to associates or non-consolidated entities. In practice, trade receivables are measured to the amortized cost method, even though they may be subject to an assignment of receivables, for example, in the context of factoring.

Equity instrument at fair value through OCI

The Group elected to classify irrevocably its non-listed equity investments under this category as it intends to hold these investments for the foreseeable future.

Impairment testing of debtor financial assets

The Group reviews if, at the closing date, a debtor financial asset or a group of debtor financial assets is likely to suffer an impairment loss based on both the expected credit loss approach and when there is an objective indicator of loss.

In practice, given the low level of loss incurred on prior years' receivables, the expected credit loss approach does not have any significant impact. If there is objective evidence that debtor financial assets carried at amortized cost or at fair value through OCI should be impaired, the amount of the loss is estimated by difference between the book value and the discounted future cash flows such as expected (excluding future probable and not actual credit losses). The discount rate used is the initial effective interest rate (i.e., the effective interest rate computed at initial recognition of the asset). The book value is reduced using an allowance account. The amount of the loss is recorded as profit or loss. The loss allowance is updated for changes in these expected credit losses at each reporting date.

If, subsequently, the impairment decreases and the decrease can be linked objectively to an event occurring after the impairment was recognized, the previously recognized impairment will be reversed. The reversal of an impairment loss is recognized as profit or loss, as long as the book value of the asset does not exceed its amortized cost at the date the loss allowance is reversed.

With respect to receivables, a loss allowance is recorded when there is objective evidence (probability of insolvency or severe financial difficulties of the debtor) that the Group will be unable to recover the balance in accordance with the initial payment conditions. The book value of the receivable is reduced by way of an allowance for loss.

Derecognition of financial assets

Financial assets and related impairment are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership of the asset to another entity. On derecognition of a financial asset measured at amortized cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss.

2.3.13.2 Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. A financial instrument is classified as an equity instrument only when (a) the instrument includes no contractual obligation (i) to deliver cash or another financial asset to another entity; or (ii) to exchange financial

assets or financial liabilities with another entity under conditions that are potentially unfavorable to the issuer; and (b) if the instrument will or may be settled in the issuer's own equity instruments, it is (i) a non-derivative that includes no contractual obligation for the issuer to deliver a variable number of its own equity instruments; or (ii) a derivative that will be settled only by the issuer exchanging a fixed amount of cash or another financial asset for a fixed number of its own equity instruments.

Equity instruments issued by the Group are recognized at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

2.3.13.3 Financial liabilities

Financial liabilities are divided into two categories: financial liabilities at amortized cost and financial liabilities at fair value through profit or loss.

The financial liabilities of the Group mainly consist of liabilities valued at amortized cost. Among them are loans and similar debts including:

- Bonds and Secured Notes;
- Credit lines from banks and other production financings;
- Bank overdrafts;
- Borrowings;
- Other loans (such as vendor loans); and
- Trade payables.

The category of financial liabilities at fair value through profit or loss includes among other things earn out liabilities, put options over non-controlling interests and securities.

Interest-bearing debts and borrowings

All loans, and debts are recognized initially at the fair value of the consideration received, less costs directly attributable to the transaction. After initial recognition, interest-bearing liabilities and debts are measured at amortized cost using the effective interest rate method. Costs directly attributable to the issuance of debt are deducted from liabilities and are amortized over the life of the debt, as a component of the effective interest rate.

Financial liabilities at fair value through profit or loss ("FVTPL")

Financial liabilities at FVTPL are measured at fair value, with any gains or losses arising on changes in fair value recognized in profit or loss to the extent that they are not part of a designated hedging relationship (see Hedge accounting policy). The net gain or loss recognized in profit or loss incorporates any interest paid on the financial liability and is included in the 'Other finance income/(costs)' line item in income statement.

Fair value is determined in the manner described in Note 24.

Derecognition of financial liabilities

The Group derecognizes financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

2.3.13.4 Derivatives

Hedging instruments

The Group uses derivative financial instruments such as forward exchange contracts, options and interest rate swaps to cover its risks related to fluctuations in foreign currency exchange rates and interest rates. These derivative financial instruments are recognized initially at fair value on the date on which they are contracted. They are then re-estimated at their fair value at each closing date. Derivative financial instruments are recognized as assets in the balance sheet when the fair value is positive and as liabilities when the fair value is negative.

For qualifying hedging instruments that are designated and qualify as cash flow hedges, the effective portion of changes in the fair value of derivatives and other is recognized in other comprehensive income. The gain or loss relating to the ineffective portion is recognized immediately in profit or loss. Amounts previously recognized in other comprehensive income and accumulated in equity are reclassified to profit or loss in the periods when the hedged item affects profit or loss, in the same line as the recognized hedged item.

For qualifying hedging instruments that are designated and qualify as fair value hedges, the fair value change is recognized in profit or loss except when the hedging instrument hedges an equity instrument designated at fair value through other comprehensive income ("FVTOCI") in which case it is recognized in other comprehensive income.

For derivatives that are not qualified as hedging instruments, the fair value change is recognized directly in profit or loss.

The fair value of forward exchange contracts is calculated by reference to the forward exchange rates applicable to contracts with similar maturity profiles. The fair value of interest rate swap contracts is determined by reference to the market values of similar instruments. The fair value of financial instruments that are traded on active markets is determined at each closing date by reference to the market quotations or transaction prices. Transaction costs are not taken into account.

For instruments that are not traded on an active market, fair value is determined using appropriate valuation techniques. These may include:

- transactions entered into under normal market conditions between knowledgeable and willing parties;
- reference to the present fair value of another instrument that is substantially the same; and
- discounted cash flows or other valuation methods.

Embedded derivatives

An embedded derivative is a component of a hybrid contract that also includes a non-derivative host – with the effect that some of the cash flows of the consolidated instrument vary in a way similar to a stand-alone derivative.

Derivatives embedded in hybrid contracts with hosts that are not financial assets within the scope of IFRS 9 (e.g., financial liabilities) are treated as separate derivatives when they meet the definition of a derivative, their risks and characteristics are not closely related to those of the host contracts and the host contracts are not measured at FVTPL.

An embedded derivative is presented as a non-current financial asset or non-current financial liability if the remaining maturity of the hybrid instrument to which the embedded derivative relates is more than 12 months and is not expected to be realized or settled within 12 months.

2.3.14 Cash and cash equivalents

Cash and cash equivalents include bank accounts and short-term deposits whose initial maturity is less than three months that are already convertible into cash and are subject to insignificant risks of change in fair value.

For the needs of the consolidated statement of cash flows, the amount of cash and cash equivalents includes the cash and cash equivalent as defined above reduced by bank overdrafts.

Investments in securities, investments with initial maturities of more than three months without an early termination option and bank accounts subject to restrictions (blocked accounts), such as restrictions due to regulations specific to a country or activity sector (e.g., exchange controls), are not classified as cash equivalents but as financial assets.

2.3.15 Trade receivables

They are initially recorded at their fair value and are subject to impairment when their realizable value falls below their book value.

2.3.16 Contract balances

If accrued revenue constitutes an unconditional right to payment or consideration, i.e., if the passage of time is sufficient for payment of the consideration to fall due, the accrued revenue will constitute a receivable. In all other cases, it constitutes the contract assets.

Revenue accruals are classified in “Trade and other receivables” since accrued revenue constitutes an unconditional right to a consideration.

Advance payments received from customers and deferred income are the contract liabilities. They are classified in “Other current liabilities”.

2.3.17 Commitments to purchase non-controlling interests (liabilities on crossed put and call options)

When the Group grants firm or contingent commitments to purchase holdings from non-controlling shareholders, the Group has generally concluded that these agreements do not grant a present ownership interest but concludes that “IAS 32 – Financial instruments presentation” takes precedence over IFRS 10 – Consolidated financial statements. By recognizing a liability for the put option over the shares held by the non-controlling interest, no non-controlling interest is recognized. The business combination is accounted for on the basis that the underlying shares subject to the non-controlling interest put have been acquired.

This liability is measured at each reporting period end in accordance with the contractual arrangements (at fair value or at present value if fixed price) and, in the absence of any guidance provided by IFRS, with a counterpart in net finance costs, in the consolidated statement of income.

The liability is booked in the other current and non-current liabilities.

Under this approach, when dividends are paid and represent a repayment of the liability (for example, when the exercise price is adjusted to reflect dividends paid), this dividend may give rise to a reduction in equity attributable to owners of the parent.

2.3.18 Provisions and contingent assets and liabilities

Provisions are recorded only if the Group has a present obligation (legal or constructive) as a result of a past event, when it is likely that an expenditure will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. It is accounted for as profit or loss in a dedicated line, net of any contingent reimbursement.

If the effect of the time value of money is material, provisions are discounted using a discount pre-tax rate that reflects, where appropriate, the risks specific to the obligation. When discounting, the increase in the provision due to the passage of time is recognized in net financial income (loss).

If the amount of the obligation cannot be reliably estimated, no provision is recorded and a disclosure is made in the notes of the consolidated financial statements.

Non-financial guarantees are accounted for as contingent liability until such time it becomes probable that the Group will be required to make a payment under the guarantee.

Contingent liabilities are possible obligations or present obligations that cannot be measured with sufficient reliability or that are not probable unless it is assumed in a business combination. Contingent liabilities are reviewed continuously to assess whether an outflow of resources has become probable.

2.3.19 Pensions and other post-employment benefits

The Group's obligations under defined benefit pension plans and other post-employment benefit plans are computed by independent actuaries using the projected unit credit method. The actuarial valuation involves making assumptions such as discount rates, retirement date, staff turnover, future increases of wages, mortality rates and future pension increases.

The effect of discounting the provision are presented in the net financial income (loss).

For these post-employment benefit plans, the actuarial gains and losses are immediately and entirely recognized in other comprehensive income with no possibility of recycling in the income statement. Past service costs are immediately and fully recorded in the income statement on acquired rights as well as on future entitlements.

2.3.20 Employees long-term incentive plans

The Group issued long-term incentive plans (LTIP). Long term incentive plan (LTIP) includes share-based payment plan both phantom shares, free shares or Warrants, that have been granted to certain employees of the group and are settled in cash or equity, and some other long term incentive plan usually based on the performance of one or several entities.

They are mostly based on the local value created by the entities during a defined period, in accordance with formulas mostly based on operating indicators (such as operating profit or EBITDA) in which the beneficiaries of the plan are rendering services.

The group reevaluates at each reporting date the fair value of the services that have been rendered to date by the beneficiaries of the plan and the resulting expenses are recorded under staff costs. Main plans are disclosed in Note 7. Depending on the plans' terms and conditions, those transactions are recognized in accordance with IFRS 2 (cash-settled share-based payment) or IAS 19 (long-term incentives). These plans are subject to service conditions.

Cash settled plan

A liability is recognized for the services acquired over the vesting period based on the valuation of the liability. At each reporting date until the liability is settled, and at the date of settlement, the value of the liability is remeasured, with any changes in fair value recognized in profit or loss for the year.

Equity settled plan

As the plans are equity-settled, the benefit represented by the share-based payment is recorded in staff costs with a corresponding increase in shareholders' equity in accordance with IFRS 2 – Sharebased Payment. The cost recorded in employee benefits expense corresponds to the fair value of the equity instruments on the grant date (i.e., the date on which grantees are informed of the plan's characteristics and terms).

The dilutive effect at year end is disclosed in Note 21 – Earnings per share.

2.3.21 Employee benefits resulting from a business acquisition arrangement

The Group generally prospects, identifies and acquires companies that create high value. It also looks for the opportunity to secure acquisitions of companies held by talented managers with the strategy of maintaining and incenting such managers after closing.

In this context, the transaction is often accompanied by an employment agreement or a service agreement between the acquiree and the manager, pursuant to the closing. Share purchase agreements may also specify restrictions on the acquisition price, on the potential earn-outs or on the remaining minority interest options in case of early departure of the manager. These restrictions may be:

- a reduction in the acquisition price;
- a forfeiture of earn-outs;
- a reimbursement of significant parts of the paid amounts; and
- a call option on minority interests held by the manager at a price less than the fair value

These contingent consideration arrangements aim at compensating former shareholders of the business acquired for future services and shall be recognized as a separate transaction as required by IFRS 3.

Depending on the description of the contingent consideration, those transactions are recognized in accordance with IFRS 2 (cash-settled share-based payment) or IAS 19 (long-term incentives):

- When the terms of the agreement provide the possibility to deliver equity instruments to the manager, or if the price is based on the fair value of the equity instruments, the grant is measured at fair value (determined by an independent expert) in accordance with IFRS 2; and
- In any other case, the grant is measured on the basis of the expected discounted cash outflow in accordance with IAS 19. The measurement is usually supported by business plans.

A liability is recognized for the goods or services acquired over the vesting period based on the fair value of the liability. At each reporting date until the liability is settled, and at the date of settlement, the liability is remeasured, with any changes in fair value recognized in profit or loss for the year.

When the consideration has already been paid, this amount is initially recognized as an asset. Subsequently, this arrangement is presented in the consolidated statement of financial position as an asset or as a liability, depending on the relationship between the manager's performance and the Group's payment.

2.3.22 Revenue

Revenue is measured based on the consideration to which the Group expects to be entitled in a contract with a customer and excludes amounts collected on behalf of third parties. The Group recognizes revenue when it transfers control of a product or service to a customer.

The revenue from ordinary activities is recognized as soon as the economic benefits of the transaction will probably benefit the Group, the amount is reliably measured, and it is likely the amount of the transaction will be recovered.

Revenue recognition is based on the delivery of performance obligations and an assessment of when control is transferred to the customer. Revenue is recognized either when the performance obligation in the contract has been performed ('point in time' recognition) or 'over time' as control of the performance obligation is transferred to the customer.

Customer contracts can have a wide variety of performance obligations, from production contracts to format licenses and distribution activities. For these contracts, each performance obligation is identified and evaluated.

The transaction price, i.e. the amount to which the Group expects to be entitled under the contract, is allocated to the identified performance obligations. The transaction price will also include an estimate of any variable consideration where the Group's performance may result in additional revenue based on the achievement of agreed targets such as audience targets. Variable consideration is not recognized until the performance obligations are met.

Production revenue from producing television programs

Production revenue is recognized when the programs are delivered to the client. Standard criteria to establish revenue recognition are:

- in most cases, client's acceptance document (i.e., delivery notice signed / approved by the client, ...)
- delivery of a certain number of episodes

In case of partial delivery of the same program over several periods of time (series, etc...), revenue, costs and margin are recognized according to episodic deliveries. Production revenue does not include grants, subsidies and co-producers' contributions. These are presented as a reduction in the cost of sales.

Production revenue from live events

Live events production revenue is recognized when the service is delivered to the customer, most of the time, on the date the event takes place (point in time or overtime depending on the duration of the events which do not usually exceed several weeks).

Distribution revenue from the sale of finished programs and formats

Distribution revenue is recognized when the rights are transferred to the client:

- based on a signed contract or a deal memo;
- when the related rights are opened; and
- for the full revenue (revenue are not spread over the licensing period), as it is an access to right since there is limited ongoing involvement in the use of the license following its transfer to the customer.

Minimum guaranteed revenue is recognized as revenue when the above criteria are met, and further variable payments are recognized when highly probable.

Revenue from music rights is recognized as revenue when received based on royalties' statements (output method).

Revenues from other rights and services

Other rights and services include merchandising, music rights, other ancillary revenues and digital services.

Merchandising revenues are recognized when the rights are transferred to the client:

- on the basis of a signed contract or a deal memo, and;
- when the licensing period begins, and;
- for the full revenue (revenues are not spread over the licensing period).

Minimum guarantee revenues are recognized as revenue when the above criteria are met, and further variable payments are recognized when received.

Revenues from music rights are recognized as revenues when received based on royalties' statements (output method).

Revenues and costs related to the rendering of services are recognized on completion of the service rendered as long as they can be estimated reliably.

When the outcome of the transaction cannot be estimated reliably, revenue shall be recognized only to the extent of the expenses recognized.

Consideration as a Principal or an Agent in revenue recognition

The Group had determined it is a principal in most of its performance obligation.

In the course of its business, the Group resells finished tape or formats purchased from third parties. Given it obtains the right to distribute the content, the Group usually controls the license. The distinction between agent and principal has an impact on the presentation of revenue, which is recognized as follows:

- on a gross basis when the Group is a principal;
- net of the cost of sales when the Group is an agent.

2.3.23 Production costs

Production costs of scripted and non-scripted programs

Production costs, attributable to the Content production & distribution business, are net of co-producers' contributions, grants and subsidies. They mainly include the costs of scripts, actors, directors, rental of equipment, technical staff, participants, hosts, sets, format fees, etc.

Until programs are delivered, related production costs are capitalized in work in progress for non-scripted programs and as intangible assets for scripted programs for which i) the Group retains the IP (Intellectual Property) and ii) the Group expects significant further IP revenue.

At revenue recognition date, the production costs of non-scripted programs are expensed in the income statement.

The production costs of scripted programs for which the Group retains the IP and expects further significant IP revenue are amortized as production costs in the statement of profit or loss using the ultimate revenue method. The cumulated amortization is calculated at the end of a given year as follows:

$$\text{Production costs} \times (\text{actual cumulated revenue} / \text{total estimated revenue of program})$$

The total estimated revenue of a program is the sum of actual cumulated revenue of the program and the program's future revenue forecast. Depreciation for a current year is calculated by difference with cumulated depreciation of previous years, if any. An impairment is booked if the net value of the program is higher than the future revenue forecast. Initial depreciation of a scripted program is expensed at delivery while the remaining value is depreciated when the subsequent distribution revenue is recognized.

Production costs of live events

Production costs of live events mainly include the costs incurred in the context of rendering a service to a client or organizing an event for a client.

Until the events occur and the services are rendered, related production costs are capitalized in work in progress.

At revenue recognition date, the production costs of live events are expensed in the income statement.

Grants and subsidies

Grants and subsidies are recognized when there is a reasonable assurance that the grant will be received, and all attached conditions will be fully complied with.

Grants and subsidies which are strictly related to the financing of a given program are deducted from production costs. When they relate to an asset, grants and subsidies are directly deducted from the carrying amount of the asset and released to the depreciation and amortization calculated on the net amount over the useful life of the asset.

All other grants and subsidies (such as government grants not strictly related to a program) are recognized as "Other operating income" when granted.

2.3.24 Operating segments

According to IFRS 8, an operating segment is a component of an entity that i) engages in business activities from which it may earn revenue and incur in expenses, ii) whose operating results are regularly reviewed by the entity's chief operating decision maker ("CODM") to decide how resources should be allocated to the component and iii) for which discrete financial information is available.

In Banijay, there are two operating segments based on the nature of the business:

- Production activities: mainly the production of audiovisual contents and live events
- Distribution activities which regroup entities in charge of selling finished tapes and formats

Holding represents amounts not allocated to the operating segments and includes certain costs related to central activities as well as group enabling functions. Intercompany elimination represents transaction inter segments that do not contribute to the Group figures.

The operating segment reporting follows the internal reporting used by the CODM to manage the business, assess the performance based on the available financial information and to allocate the resources. The most important performance measures are net revenue, adjusted EBITDA (definition in Note 4), cost of net debt and adjusted free cash flow as management believes this is key in evaluating the results of the segments relative to other companies that operate within the same industry.

2.3.25 Other non-current operating income and expenses

Those items comprise income and expenses that are both unusual in nature and significant in terms of value at the consolidated level. By default, all acquisition costs (excepted costs related to non-controlled entities), capital gain/loss following change in scope of controlled entities, restructuring costs, moving costs and leases right of use impairment, are booked under non-current operating income and expenses. The group presents such income and expenses separately in the statement of profit or loss in order to facilitate the understanding of the recurring operating performance.

2.3.26 Taxes

2.3.26.1 Current tax

Tax receivables or tax payables for the current period and prior periods are estimated at the amount that is expected to be received from or to be paid to the tax administration. Tax rates and tax laws used in order to estimate the tax receivable, or the tax liability are those which have been enacted at closing date. Current income

taxes pertaining to items recognized in “other comprehensive income” are recorded in the same category and not as profit or loss.

Current tax assets are recognized only to the extent that their recovery is probable based on foreseeable taxable profits.

The Group classifies the CVAE in France (Contribution on added value) and IRAP Tax in Italy (Regional production tax) as income tax.

2.3.26.2 Deferred taxes

Differences existing at closing between the tax bases of assets and liabilities and their carrying value in the consolidated statement of financial position give rise to temporary differences, except for non-tax-deductible goodwill. Pursuant to the liability method, these temporary differences result in the accounting of:

- deferred tax assets, when the tax base value is greater than the carrying value (expected future tax saving); and
- deferred tax liabilities, when the tax base value is lower than the carrying value (expected future tax expense).

Deferred tax assets and liabilities are measured at the expected tax rates for the year during the Group expects the asset will be realized or the liability settled, based on tax rates (and tax regulations) enacted or substantially enacted by the closing date. They are reviewed at the end of each year, in line with any changes in applicable tax rates.

Deferred tax assets for all deductible temporary differences, tax loss carry-forwards and unused tax credits are only recognized to the extent that it is probable that future taxable profit will be available against to utilize them.

The carrying value of deferred tax assets is reviewed at each closing date, and revalued or reduced to the extent that it is more or less probable that a taxable profit will be available to allow the deferred tax asset to be utilized. When assessing the probability of a taxable profit being available, account is taken, primarily, of prior years’ results, forecasted future results, non-recurring items unlikely to occur in the future and the tax strategy. As such, the assessment of the Group’s ability to utilize tax losses carried forward is to a large extent judgment based. If the future taxable results of the group proved to differ significantly from those expected, the Group would be required to increase or decrease the carrying value of deferred tax assets with a potentially material impact on the Group’s statement of financial position and statement of income.

Deferred tax assets and liabilities are not discounted and are offset when they have the same maturity and relate to the same taxable entity or tax group. They are classified in the statement of financial position as non-current assets and liabilities.

Deferred tax shall be charged or credited directly to equity and not profit and loss if the tax relates to items that are credited or charged directly to equity. Deferred taxes resulting from the recognition of asset or liability in a business combination are recognized in the same way.

2.3.27 Related parties

A related party is a person or an entity that is related to the Group. These include both people and entities that have, or are subject to, the influence or control of the Group (e.g., shareholders, key management personnel). Transactions with related parties are accounted for in accordance with the requirements of relevant IFRS and take into account the substance as well as the legal form.

Note 3 SIGNIFICANT EVENTS THAT OCCURRED IN 2025

Lotchi

On January 2nd, 2025, Banijay acquired Lotchi, a company based in France. Following the integration of Balich Wonder Studio in 2023, this acquisition is part of the Group's strategy to expand its Live Events division.

Lotchi is a start-up founded by Romain Sarfati in 2023 which has gained recognition in France for its know-how in blending cutting-edge technology and live orchestra to deliver cultural spectacles in landmark venues. Lotchi is a creator of live immersive experiences of which debut show "Luminiscence" has already attracted more than 350,000 spectators across France at the time of the acquisition.

Now part of the Group, Lotchi is deploying its immersive experience across iconic monuments in major international cities within Banijay's footprint. The concept is already live in 2025 in Brazil, Germany, the Netherlands, Spain, the UK, and the USA, and is expected to launch in Mexico in 2026.

Refinancing and repricing

In January 2025, Banijay successfully:

- raised new €400m Term Loan B (maturity 2032) at E+3.25%
- repriced existing € Term Loan B at E+3.25% from E+ 3.75% and \$ Term Loan B at S+2.75% from S+ 3.25%,

Proceeds of the new EUR TLB has been used to reimburse the remaining EUR SUN, all of the shareholder loan and part of existing USD TLB.

Cross currency Swap on \$400m senior secured notes with coupon of 8.125% per annum

A new interest-rate and currency hedging instrument has been set up. This instrument, a Cross Currency Swap, has two main objectives:

- to hedge the risk of fluctuations in the EUR/USD exchange rate (Fx. rate per Eur. of c. \$ 1.037)
- to lock in savings in financial interest at the level of SSN USD coupons (between 6.4% and 6.5%)

The SSN USD debt, through the implementation of this instrument, will be economically "transformed" into a debt denominated in EUR until the maturity of the instrument (2028).

Equity contribution

In January 2025, Banijay had two capital increases:

- Incorporation of the remaining shareholder loan with Banijay Group NV, converted into capital for €63.0 million (2,208,976 shares) – see note 20.1
- Warrants (BSA) exercised by a key manager for €20.3million (2,069,028 shares) – see note 20.1 and 25.7

Note 4 SEGMENT INFORMATION

As described in note 2.3.24 – Operating segments, the Group operates two operating segments which reflect the internal organizational and management structure according to the nature of the products and services provided:

- Production activities (including digital), which encompass all production entities of the group as well as the production of live events. These entities form a single operating segment as the nature of their business is similar across the group (mainly ‘the production of audiovisual contents and live events’) and they present similar long-term economic characteristics.
- Distribution activities (including commercial), constituted by Banijay Rights, Banijay Brands and their subsidiaries, whose activity differs from the rest of the group as those entities are in charge of selling finished tapes and formats.

In addition, a third operating segment “Holding” includes the corporate activities.

The following tables present information in accordance with this new allocation, and the comparative information has been restated in accordance with IFRS 8, Operating segments.

The following tables present information with respect to the Group’s business segments in accordance with IFRS 8 for the years ended 31 December 2025 and 2024.

Profit & Loss per segment

In € million	2025.12			
	Production	Distribution	Holding	Total Group
Revenue	2 996.3	290.6	0.0	3 286.8
Adjusted EBITDA	455.7	136.9	(48.6)	544.0
Operating profit/(loss)	283.0	60.7	(21.0)	322.7
Cost of net debt	(36.0)	(0.3)	(125.5)	(161.8)
Net income/(loss) for the period	71.7	24.3	(80.4)	15.7
Attributable to:				
Non-controlling interests	1.8	-	-	1.8
Shareholders	69.9	24.3	(80.4)	13.9

In € million	2024.12			
	Production	Distribution	Holding	Total Group
Revenue ⁽¹⁾	2 991.2	356.6	0.0	3 347.8
Adjusted EBITDA ⁽¹⁾	421.2	155.8	(48.8)	528.2
Operating profit/(loss) ⁽¹⁾	221.6	74.4	(29.8)	266.2
Cost of net debt	(36.3)	(0.0)	(134.7)	(171.0)
Net income/(loss) for the period ⁽¹⁾	(5.1)	68.1	(60.7)	2.2
Attributable to:				
Non-controlling interests	(0.7)	-	-	(0.7)
Shareholders	(4.4)	68.1	(60.7)	2.9

⁽¹⁾ 2024 published revenue: production €3,024.9 million; distribution €322.9 million. Both numbers have been amended by (-) and (+) €33.7 million respectively; see note 14.1. Consequently, adjusted EBITDA, operating profit/(loss) and net income/(loss) have also been amended.

For comparison purposes, 2024 repartition between production and distribution has been amended. This change is related to the reallocation of format distribution in the Netherlands, see note 14.1.

Adjusted EBITDA

The Group considers Adjusted EBITDA to be a useful metric for evaluating its operating performance as it facilitates a comparison of its core operating results from period to period by removing the impact of, among other things, its capital structure, asset base and tax consequences. Adjusted EBITDA is a non-IFRS measure and, as a result, these measures and ratios may not be comparable to measures used by other companies under the same or similar names.

Adjusted EBITDA is defined as the operating profit for that period excluding restructuring costs and other non-core items, costs associated with the long-term incentive plan within the Group (the “LTIP”) and employment related earn-out and option expenses, and depreciation and amortization (excluding D&A fiction and operational provisions).

Those adjustments items include:

- **Restructuring costs and other non-core items:** due to their unusual nature or particular significance, these items are excluded. In general, these items relate to transactions that are significant, infrequent, or unusual. However, in certain instances, transactions, such as restructuring costs or asset disposals, which are not representative of the normal course of business (referred as “non-core items”), may be adjusted although they may have occurred within prior years or are likely to occur again within the coming years. The detail of these costs is provided in Note 10;
- **LTIP and employment-related earn-out and option expenses:** reference is made to employee benefits Long-Term Incentive Plans and employee benefits obligations resulting from a business acquisition arrangement. The detail of these costs is provided in notes 7.2 and 7.4;
- **Depreciation and amortization (excluding first D&A fiction):** depreciation and amortization of software and intangible assets, PPE own property, right-of-use and intangible assets acquired in business combinations. The D&A line in the consolidated statement of income includes D&A on fictions:
 - First D&A fiction are costs related to the first amortization of fiction production which the Group considers to be operating costs at the time of the first delivery of the program; those costs are therefore included in the Adjusted EBITDA.
 - Remaining amortization on fiction being considered as amortization of IP rights, those costs are therefore kept in the adjustments.
- **Impairment losses and provisions, net of reversal:** when they relate to impairment of fixed assets

The table below presents the reconciliation of operating profit before exceptional items and amortization of acquisition-related intangibles to Adjusted EBITDA for 2025 and 2024:

In € million	2025.12			
	Production	Distribution	Holding	Total Group
Operating profit/(loss):	283.0	60.7	(21.0)	322.7
Restructuring costs and other non-core items	21.6	(0.2)	0.2	21.6
LTIP and employment-related earn-out and option expenses	47.0	1.1	3.1	51.2
Depreciation and amortization (excluding first D&A fiction ⁽¹⁾)	73.0	71.1	4.4	148.6
Management fees reallocations and others	31.1	4.1	(35.2)	(0.0)
Adjusted EBITDA	455.7	136.9	(48.6)	544.0

⁽¹⁾ €5.2 million amortizations of fiction production recognized in 2025.

In € million	2024.12			
	Production	Distribution	Holding	Total Group
Operating profit/(loss) ⁽¹⁾	221.6	74.4	(29.8)	266.2
Restructuring costs and other non-core items	32.6	1.4	4.2	38.2
LTIP and employment-related earn-out and option expenses	64.6	3.3	3.4	71.3
Depreciation and amortization (excluding first D&A fiction ⁽²⁾)	74.0	72.6	5.8	152.4
Management fees reallocations and others	28.3	4.1	(32.5)	(0.0)
Adjusted EBITDA ⁽¹⁾	421.2	155.8	(48.8)	528.2

⁽¹⁾ 2024 published operating profit/(loss): production €255.3 million; distribution €40.7 million. Both numbers have been amended by (-) and (+) €33.7 million respectively see note 14.1. Consequently, adjusted EBITDA has also been amended.

⁽²⁾ €16.5 million amortization of fiction production recognized in 2024.

For comparison purposes, 2024 repartition between production and distribution has been amended. This change is related to the reallocation of format distribution in the Netherlands, see note 14.1.

Balance Sheet per segment

In € million	2025.12			
	Production	Distribution	Holding	Total Group

TOTAL Balance Sheet	3,274.6	1,627.7	4,902.3	2,853.8	1,715.5	4,569.3

Production & distribution

Non-current assets are mainly constituted by goodwill resulting from BG's acquisitions, intangible assets, right-of use assets, property, plant and equipment, financial interests in non-consolidated companies, the non-current portion of the derivative financial assets and deferred taxes.

Current assets are mainly constituted by trade receivables, cash and cash equivalents, tax and grant receivables and work in progress which corresponds to costs incurred in the production of non-scripted programs (or scripted programs for which the Group does not expect subsequent Intellectual Property revenue) that have not been delivered at reporting date, as the Group recognizes its production revenue upon delivery of the materials to the customer.

Non-current liabilities include primarily long-term borrowings, long-term lease liabilities, employee-related long-term incentives, liabilities on earn-out and put option, employment-related on earn-out and option obligation, and other non-current liabilities.

Current liabilities are mainly constituted by short-term borrowings, trade payables, employee-related payables, tax liabilities, short term liabilities on non-controlling interests, employment-related earn out and option obligations and deferred income that relates to undelivered programs that are work-in progress (or intangible assets-in-progress) and that have already been invoiced. This deferred income corresponds to the contract liabilities (in accordance with IFRS 15).

Holding

Non-current assets are mainly composed of financial assets.

Current assets are mainly constituted by tax receivables (excluding income tax) and cash and cash equivalents.

Non-current liabilities mainly comprise other securities, employee-related long-term incentives, liabilities on earn-out and put options, employment-related on earn-out and option obligation, and other non-current liabilities.

Current liabilities correspond mainly to supplier payables, employee-related long-term incentives.

Cash and cash equivalents as of 1 January	1 016.8	276.8	(925.5)	368.1
Cash and cash equivalents as of December 31	952.5	355.4	(1 036.6)	271.2

⁽¹⁾ 2024 published operating cash flow: production €299.3 million; distribution €69.1 million. Both numbers have been amended by (-) and (+) €33.7 million respectively; see note 14.1. Consequently, net (increase/decrease) in cash and cash equivalent has also been amended.

For comparison purposes, 2024 repartition between production and distribution has been amended. This change is related to the reallocation of format distribution in the Netherlands, see note 14.1.

In € million	2025.12			
	Production	Distribution	Holding	Total Group
Adjusted EBITDA	455.8	136.9	(48.7)	544.0
Working capital variation	(44.1)	0.4	31.5	(12.3)
Income tax paid	(75.0)	(8.0)	(5.4)	(88.3)
Restatement of Exceptional items	2.2	-	1.0	3.2
Restatement of LTIP cash out ⁽¹⁾	28.2	0.7	5.9	34.8
Purchase of property, plant and equipment and intangible assets - Net of disposal ⁽²⁾	(57.3)	(62.4)	(6.2)	(125.9)
D&A in EBITDA ⁽³⁾	5.2	-	-	5.2
Others	0.1	-	-	0.1
Adjusted Free-cash flow (before LTIP)	315.2	67.5	(21.8)	360.8
LTIP cash out	(28.2)	(0.7)	(5.9)	(34.8)
Adjusted Free-cash flow	286.9	66.8	(27.7)	326.0

⁽¹⁾ "Restatement of LTIP cash out" is made of €31.8 million of benefit paid on LTIP o/w Phantom shares and free shares (note 7.3.2) and employment related earn-out and option obligations for €3.0 million (note 7.4).

⁽²⁾ "Purchase of property, plant and equipment and intangible assets – net of disposal" includes -€125.9 million of purchase of tangible and intangible assets (note 25.3)

⁽³⁾ €5.2 million of amortizations of fiction production recognized in 2025

In € million	2024.12			
	Production	Distribution	Holding	Total Group
Adjusted EBITDA ⁽¹⁾	421.2	155.8	(48.8)	528.2
Working capital variation	(101.9)	(44.6)	52.6	(93.9)
Income tax paid	(49.0)	(6.9)	(7.4)	(63.3)
Restatement of Exceptional items	0.4	-	0.1	0.5
Restatement of LTIP cash out ⁽²⁾	30.0	0.8	10.5	41.2
Purchase of property, plant and equipment and intangible assets - Net of disposal ⁽³⁾	(52.1)	(45.1)	(3.2)	(100.3)
D&A in EBITDA ⁽⁴⁾	16.5	-	-	16.5
Others	0.6	-	(0.3)	0.3
Adjusted Free-cash flow (before LTIP) ⁽¹⁾	265.6	59.9	3.6	329.1
LTIP cash out	(30.0)	(0.8)	(10.5)	(41.2)
Adjusted Free-cash flow ⁽¹⁾	235.6	59.1	(6.9)	287.8

For comparison purposes, 2024 repartition between production and distribution has been amended. This change is related to the reallocation of format distribution in the Netherlands, see note 14.1.

⁽¹⁾ 2024 adjusted EBITDA: production €454.9 million; distribution €122.1 million. Both numbers have been amended by (-) and (+) €33.7 million respectively; see note 14.1. Consequently, adjusted free cash flow, before and after LTIP, has also been amended.

- (2) "Restatement of LTIP cash out" is made of €33.2 million of benefit paid on LTIP o/w Phantom shares and free shares (note 7.3.2) and employment related earn-out and option obligations for €8.0 million (note 7.4).
- (3) "Purchase of property, plant and equipment and intangible assets – net of disposal" includes -€101.5 million of purchase of tangible and intangible assets (note 25.3) and €1.2 million of Disposals of property, plant and equipment and intangible assets
- (4) €16.5 million amortizations of fiction production recognized in 2024

Note 5 REVENUE

Revenue for the years ended 31 December 2025 and 2024 by activity and sub-activity are as follows:

<i>In € million</i>	2025.12	2024.12
Production	2 521.5	2 614.7
Distribution	368.3	397.0
Other and Live Events	397.0	336.0
TOTAL REVENUE	3 286.8	3 347.8

The total revenue is split by typology of revenue and not by segment and corresponds essentially to the production and sale of audiovisual programs, the distribution of audiovisual rights and/or catalogues and the production of live events.

The production stream confirms our resilience, with a limited variance resulting from a slight unfavorable seasonality impact on the scripted deliveries and perimeter exits of non-core activities.

The 'Other and Live Events' revenue stream continues to expand, primarily driven by the acquisition of Lotchi in 2025 and expansion of the Balich Wonder Studio business. This category of revenue is presented within the Production segment (Note 4).

Information by geographical area based on the origin location of the invoicing entity is as follows:

<i>In € million</i>	2025.12	2024.12
France	355.2	361.4
United Kingdom	702.0	606.3
Europe excluding France and United Kingdom	1 426.9	1 391.8
United States of America	377.7	521.3
Rest of the world	425.0	466.9
TOTAL REVENUE	3 286.8	3 347.8

Note 6 EXTERNAL EXPENSES

External expenses for the years ended 31 December 2025 and 2024 are:

<i>In € million</i>	2025.12	2024.12
Content production costs	(1,658.9)	(1,619.7)
Work in progress and Fiction in progress adjustment	(46.7)	(55.5)
Grants received	172.1	127.7
IT costs	(34.2)	(30.0)
Consulting/audit/other fees	(23.1)	(23.7)
Other external services	(42.6)	(38.4)
External expenses	(1,633.5)	(1,639.6)

Content production costs include mainly production subcontracting costs affected to production. Subcontracting costs are also impacted by the change of balance during 2024 between lower temporary staff (recognized in Staff costs and higher subcontractors' costs (recognized in External expenses).

The "Grants received" line corresponds to the government funding for delivered audiovisual productions (mainly scripted programs) in the various geographical areas where the Group operates.

In 2025, government grants deducted from production costs amounted to € 172.1 million (€ 127.7 million in 2024). Those grants are related to the financing of given programs, mostly scripted productions, and had the nature of tax credit or subsidies granted by regional or trade organizations. There are no unfulfilled conditions or contingencies attached to these grants.

Note 7 STAFF COSTS

7.1 Payroll

Payroll costs are broken down as follows in 2025 and 2024:

<i>In € million</i>	Note	2025.12	2024.12
Employee remuneration and social security costs		(1,088.8)	(1,145.0)
Post-employment benefit - Defined benefit obligation		(1.4)	(1.4)
Employee benefits LTIP	7.3.2	(24.9)	(47.0)
Employment-related earn-out and put option expenses	7.4	(26.3)	(24.3)
Staff costs		(1,141.4)	(1,217.7)

7.2 Employee remuneration and social security costs

Employees remuneration and social security costs includes all short-term remuneration including payroll taxes. Staff costs decreased from €1,217.7 million in the prior period to €1,141.4 million in the current period (-€76.3 million), mainly driven by decrease for both permanent staff (-€9.1 million) and temporary staff (-€42.0 million) costs, a reduction in related social charges (-€4.2 million), and a significant decrease in LTIP expenses (-€20.1 million).

As noted in Note 6, lower temporary staff costs (in Staff costs) are offset by higher subcontractor expenses (in External expenses).

7.3 Employee benefits Long-Term Incentive Plans

Long term incentive plan (LTIP) includes share-based payment plans both phantom shares and free shares, that have been granted to certain employees of the group and are settled in cash or equity, and some other long term incentive plans usually based on the performance of one or several entities.

Most of those schemes are based on the local value creation of the entities in accordance with formulas mostly based on operating KPI (such as operating profit) in which the beneficiaries of the plan are rendering services.

The group reevaluates at each reporting date the fair value of the services that have been rendered to date by the beneficiaries of the plans and the resulting expense is recorded under staff costs.

7.3.1 Description of the on-going plans

At Banijay's level, the Group issues to key management free share plans (*Actions Gratuites* – “AGA”) and share purchase warrants (*Bon de Souscription d'Actions* “BSA”).

In addition, Banijay issues phantom shares plans to certain directors and employees that require the sub-group to pay the intrinsic value of the phantom shares to the employee at the date of exercise.

A summary of the plans' characteristics is presented below:

Plan	Type at Banijay level	Attribution date	Conditions	End of vesting period
Free Share plans (AGA)	Equity -settled	2017 to 2028	Presence and performance	2019 to 2030
Free Share plans (AGA)	Equity-settled	From 2017 and renewable yearly	Performance	2026 and renewable yearly
Share purchase warrants (BSA)	Equity-settled	2021	Performance	2025
Phantom shares	Cash-settled	From 2016	Presence and performance	2020 and 2024 2024 and 2028 2026 and 2030 2027 and 2031
Other long-term incentive	Cash-settled	From 2016	Presence and performance	2024 and 2031

7.3.2 Measurement of the plans

The Group measured the liability at fair value at the closing date using the same calculation methodology as at the previous closing and based on:

- Updated budget forecasts based on the budget and the business plan adopted as part of the impairment tests;
- Assumptions such as the discount rate (8.94% in 2025) and the discounts in connection with the contractual clauses of good and bad leaver updated compared to the previous closing.

The balances of long-term incentive plans are as follows:

In € million	Note	2025.12	2024.12
Current liabilities	19.5	39.6	12.8
Non-current liabilities	19.5	92.7	124.5
Long-term incentive plans		132.3	137.2

The movements in long-term incentive plans over the years are as follows:

<i>In € million</i>	Note	2025.12	2024.12
Balance as of 1 January		137.2	114.6
Service costs	7.1	24.9	47.0
Benefits paid		(31.8)	(33.2)
Equity-settled instrument (counterpart equity)		2.5	3.0
Modification equity-settled plan vs. cash-settled (counterpart equity)		-	(6.7)
Translation adjustments		(0.4)	0.9
Other movements		(0.1)	11.7
Balance as of 31 December		132.3	137.2

The Group has recorded liabilities of €132.3 million as of 31 December 2025 (€137.2 million as of 31 December 2024).

- Service costs of €24.9million for December 2025 (vs €47.0 million for December 2024) consider:
 - The cost of share-based payment plans cash-settled is an expense of €27.4 million (vs. €50.0 million in 2024)
 - The cost of share-based payment plans equity-settled recorded under staff cost in recurring operating income is an income of €2.5 million, with a corresponding decrease in equity (line “*Long-term incentive plan equity settled*” in table above) (2024: income of €3.0 million with a corresponding decrease in equity).

Decrease of services costs is driven by the end of vesting period of the first allocation on a phantom-shares plan (2021 – 2028).

- The cash outflows in regards with LTIP amounted to -€31.8 million for the period ended 31 December 2025, compared to -€33.2 million for the period ended 31 December 2024.
- The other movements in December 2024 correspond to a reclassification of €11.7 million from other debts to Long-term incentive plan debt. This liability has been paid to BG N.V. (included in the line “benefits paid”) in order to finance a cash settled LTIP at Banijay SAS level, that is equity settled at BG N.V level.

7.4 Employee benefits obligation resulting from a business acquisition arrangement

The balances of the employee benefits resulting from a business acquisition arrangement are as follows:

<i>In € million</i>		2025.12	2024.12
Current liabilities	19.5	24.0	15.4
Non-current liabilities	19.5	74.4	55.7
Employment-related earn-out and option obligation (net)		98.4	71.0

The movements in the employment-related earn-out and option obligation over the years are as follows:

<i>In € million</i>	Note	2025.12	2024.12
Balance as of 1 January		71.0	49.5
Service costs	7.1	26.3	24.3
Interest expense		5.6	4.3
Benefits paid		(3.0)	(8.0)
Translation adjustments and other movements		(1.5)	1.0
Balance as of 31 December		98.4	71.0

Benefits are based on contractual formulas and computed based on business plans as validated by the business units.

Note 8 OTHER OPERATING INCOME AND EXPENSE

Other operational income and expenses for the year ended in 2025 and 2024 are as follows:

<i>In € million</i>	2025.12	2024.12
Tax and duties	(1.4)	(2.0)
President and management fees	(14.4)	(13.5)
Other operational expenses	(1.5)	(2.1)
Other operational income	1.7	1.2
Other operating income and expenses	(15.6)	(16.3)
<i>Of which other operating income</i>	<i>1.7</i>	<i>1.2</i>
<i>Of which other operating expense</i>	<i>(17.3)</i>	<i>(17.5)</i>

Increase in President and management fees mainly due to the application of the calculation formula based on revenue and EBITDA.

Note 9 DEPRECIATION AND AMORTIZATION

Depreciation and amortization expenses by category of assets are as follows:

<i>In € million</i>	2025.12	2024.12
Intangible assets (1)	(59.9)	(81.4)
Right-of-use	(40.1)	(39.3)
Other tangible	(25.3)	(21.3)
Depreciation and amortization	(125.3)	(142.0)
Amortization of intangible assets acquired in business combinations	(28.5)	(26.8)
Depreciation and amortization expenses	(153.8)	(168.9)

⁽¹⁾ Of which €5.2 million amortizations of fiction production recognized in 2025 (€16.5 million in 2024).

Amortization decreased compared to the prior year, mainly due to lower amortization of production assets, including fiction content and distribution advances.

Impairment losses and provisions net of reversals are as follows:

<i>In € million</i>	2025.12	2024.12
Content asset impairment	-	(0.0)
Current assets impairment and provision variation (1)	1.7	(0.8)
Impairment losses and provisions, net of reversals	1.7	(0.9)

(1) Provision variation impacting operating profit such as onerous contract

Note 10 OTHER NON-CURRENT OPERATING INCOME (EXPENSES)

Other non-current operating income and expenses for the year-ended in 2025 and 2024 are as follows:

<i>In € million</i>	2025.12	2024.12
Acquisition costs	(2.1)	(3.1)
Restructuring & reorganization costs	(13.7)	(24.2)
Change in consolidation scope	1.8	(7.4)
Other non current operating income (expenses)	(7.6)	(3.5)
Other non current operating income (expenses)	(21.6)	(38.2)

The acquisition costs include expenses related to the different M&A projects (closed, committed, or cancelled).

Restructuring costs consist of redundancy costs incurred in recent acquisitions, or similar costs incurred in certain entities in order to achieve synergies.

Other non-current operating income mainly relates to an impairment recorded following the termination of a business in one of the Group's entities in Spain.

Note 11 FINANCIAL RESULT

<i>In € million</i>	2025.12	2024.12
Interests costs on bank borrowings, bonds and vendor loans	(159.7)	(170.7)
Transactional costs on anticipated reimbursement of debt	(2.9)	(1.6)
Cost of gross financial debt	(162.6)	(172.3)
Interests received on cash and cash equivalents	0.7	1.3
Gains on assets contributing to net financial debt	0.7	1.3
Cost of net debt	(161.8)	(171.0)
Interests on lease liabilities	(6.5)	(6.5)
Change in fair value of earn-out and put option	(20.9)	(15.0)
Fair value on Fx derivative instruments	(51.3)	(3.1)
Currency gains/(losses)	44.4	2.1
Impairment on financial assets	(7.9)	(8.7)
Other financial gains/(losses)	(8.5)	(9.3)
Net financial income/(expense)	(212.6)	(211.6)

The decrease in the cost of gross financial debt year-on-year mainly driven by financing and hedging effects, including the implementation of a cross-currency swap, refinancing savings on the TLB, and lower reference rates, partly offset by the expiry of legacy hedging instruments.

The other financial income and expenses for the twelve-month periods ended 31 December 2025 and 31 December 2024 are detailed as follows:

- -€6.5 million discounting effect on IFRS 16 interest (vs -€6.5 million in 2024.12)
- The change in fair value of financial instruments mainly includes:
 - -€4.7 million of reevaluation expenses related mainly to liabilities on earn-out and put option (vs €3.1 million in 2024.12)
 - -€16.3 million discounting expenses related to employment related to earn-out and option obligations (vs -€11.7 million in 2024.12). These liabilities are discounted based on an 8.94% discount rate (8.86% in 2024.12)
- Foreign exchange net result (- €6.9 million in 2025 vs. -€1 million in 2024): Foreign exchange impact should be analyzed cumulatively with the mark to market of the foreign exchange derivative instruments amounting to -€51.3 million (vs -€3.1 million in 2024.12) on one side (see note 23.5), and other side Currency gains/losses that are related to unrealized and realized foreign exchange effect for €44.4 million (vs €2.1 million in 2024.12) of all receivables and payables and especially on the USD senior secured notes
- Impairment on financial assets for -€7.9 million related to loans to associates
- Other financial gains / (losses) mostly include factoring commissions and related interests.

Note 12 INCOME TAX

12.1 Income tax expense

<i>In € million</i>	2025.12	2024.12
Current income tax	(68.1)	(63.7)
Deferred income tax	(13.1)	16.2
Pillar II top up tax	(0.7)	(0.6)
Total tax expense	(81.8)	(48.0)

The income tax for the period ended December 31, 2025, amounts to -€81.8 million compared to -€48.0 million in the period ended in 2024.

At the end of December 2025, a Pillar II top up tax of -€0.7 million has been recognized by the group (note 12.3).

12.2 Group's tax reconciliation

The Group's profit is generated in several countries. The tax rate is subject to changes in actual local tax rates and depends on the relative contributions of the different countries in the Group's profit.

The current tax rate for French companies in the Group is 25.83% for 2024 and 2025 fiscal years.

The reported group's effective tax rate (calculated as "Group tax expense" / "Net income of consolidated companies before tax") stands at **74.4%** for the period ended December 31, 2025, compared to **87.9%** the period ended in 2024.

From 2024 onwards, the head of the French tax group is now Banijay Group NV; this change does not enable Banijay to offset profit and loss into the tax group since the economy is booked at Banijay Group NV level. Restated from this effect, evaluated in 2025 at €6.9 million (including current income tax and deferred tax), the group's effective tax rate would stand at **68.1%** compared to **75.1%** the period ended in 2024.

The following table shows a reconciliation of the theoretical tax expense calculated at the French applicable rate, the Parent Company being a tax resident in France, and the recognized income tax expense:

<i>In € million</i>	2025.12	2024.12
Consolidated net income/(loss)	15.7	2.2
Share of profit or loss of associates and joint ventures	(12.6)	(4.4)
Net income of consolidated companies	28.2	6.6
Income tax	(81.8)	(48.0)
Net income of consolidated companies before tax	110.1	54.6
Applicable corporate tax rate	25.83%	25.83%
Theoretical tax charges	(28.4)	(14.1)
Impact from tax rate differentials ⁽¹⁾	(0.3)	(5.2)
Change in unrecognized tax assets ⁽²⁾	(32.8)	(14.4)
Savings/charge on permanent tax differences ⁽³⁾	9.4	(1.1)
Transfert of deficits to the head of tax group ⁽⁴⁾	(16.4)	(3.2)
Pillar II top up tax	(0.7)	(0.6)
Tax without basis ⁽⁵⁾	(12.5)	(10.2)
Other	(0.1)	0.8
GROUP TAX EXPENSE	(81.9)	(48.0)

⁽¹⁾ The variation is mostly driven by income tax rate differences on one US entity that is out of scope in 2025

- (2) *Unrecognized tax assets concern (i) geographies with unfavorable tax planning (France and Italy) and limitation on financial interests that are not recoupable in a foreseeable future and (ii) limitation on tax receivables recognition with new tax credit in UK – The Audiovisual Tax Credit Expenditure. This latest explanation impacts 2025 for -€7.2 million.*
- (3) *Permanent tax differences are mainly linked to non-taxable tax credit, offset by some limitation on financial interest (qualified as permanent), and IFRS expenses related to free share plans (LTIP) and value variation on earn-out and put options (employment-related on earn-out and option obligation and liabilities on earn out and put option).*
- (4) *The definition of Banijay Group NV (Dutch entity but exclusively tax resident) as the new head of tax group in France has led to transfer €63.5 million in 2025 (€12.0 million in 2024) of tax loss outside of the Banijay SAS consolidated group, i.e. -€16.4 million in 2025 (-€3.2 million in 2024) of income tax equivalent. The new head of tax group is Banijay Group NV which is above Banijay SAS scope.*
- (5) *These amounts mainly reflect the CVAE in France, IRAP in Italy, state-tax in the US and withholding taxes unrecouped effect in different geographies.*

The reconciling items reflect the effect of tax rate differentials and changes as well as the tax effects of non-taxable income or non-deductible expenses arising from permanent differences between local tax bases and the financial statements presented under IFRS.

Compared to prior year, the group effective tax rate evolution is mainly driven by better performance with a higher profit before tax and a country mix.

The group effective tax rate stays affected by the M&A mechanism (EO/Put instruments) that prevent future variation in the IFRS P&L from tax deductibility, non-recognition in Italy following unfavorable tax planning, and limitation on financial interest deductibility.

12.3 Pillar Two taxes

The OECD international tax reform (Pillar Two), aimed at ensuring a global minimum corporate income tax rate of 15%, has been applicable in France since fiscal year 2024. The Group recognized a Pillar Two current tax expense of €0.7 million in 2025 (€0.6 million in 2024). Pursuant to the amendments to IAS 12 'Income Taxes' issued by the IASB on 23 May 2023, the Group does not recognize or disclose any deferred tax assets or liabilities arising from the OECD Pillar Two model rules.

12.4 Deferred taxes variation and breakdown by nature

12.4.1 Change in deferred taxes

<i>In € million</i>	<i>Deferred tax assets/(Liabilities) net</i>
Balance as of 1 January 2024	48.4
Deferred tax recognized in profit or loss	16.2
Deferred tax recognized in invested equity	1.8
Deferred tax recognized in business combinations	(2.4)
Translation differences	1.1
Reclassification	7.2
Balance as of 31 December 2024	72.5
Deferred tax recognized in profit or loss	(13.1)
Deferred tax recognized in invested equity	2.0
Deferred tax recognized in business combinations	(1.2)
Translation differences	(3.1)
Reclassification	0.0
Balance as of 31 December 2025	58.0

12.4.2 Breakdown by nature

The breakdown of deferred tax assets (liabilities), net as of December 31, 2025, and December 2024 by nature was as follows:

<i>In € million</i>	2025.12	2024.12
Tax loss carryforwards ⁽¹⁾	41.3	52.5
Share-based payment (cash settled) and other provisions for retirement ⁽²⁾	14.5	16.8
Purchase Price Acquisition (PPA)	(19.8)	(23.2)
IFRS 16	2.2	3.4
Financial instruments	0.3	(3.3)
Others ⁽³⁾	19.4	26.2
Deferred tax assets/(Liabilities), net	58.0	72.5
<i>O/W Deferred tax assets</i>	61.8	73.4
<i>O/W Deferred tax liabilities</i>	(3.8)	(0.9)

⁽¹⁾ Tax recognition on tax losses based on forecasted consumption mostly in the UK and Netherland. Deferred taxes on tax losses are recognized only when foreseeable consumption is planned and / or up to deferred tax liabilities compensation.

⁽²⁾ Decrease due to some LTIP payments during the period

⁽³⁾ o/w deferred tax on accrued expenses deductible once paid, on amortization of tax value of share investments and on financial interests

Assessing the uncertainty regarding the probability of recovering deferred tax assets requires judgement.

The Group analyzed the potential utilization of the deferred tax asset arising from tax loss carryforwards in the near future (i.e. based on expected taxable profits in the next two years).

The cumulated tax losses carry forward as of end 2025 is €824.1 million (€853.9 million in 2024), of which €202.5 million recognized (€41.3 million of DTA equivalent) and €621.6 million not recognized (€161.2 million of DTA equivalent). The main part of the tax losses carried forward can be used indefinitely, however in some geographies some of those tax losses are restricted in their consumption. In 2024 the transfer from the former French Tax group to BG NV was performed for -€212 million.

Note 13 CHANGE IN THE GROUP PERIMETER

13.1 Significant acquisitions in 2025

The Group acquired the following businesses during the year:

Lotchi (France)

On January 2nd, 2025, Banijay acquired Lotchi, a company based in France. Following the integration of Balich Wonder Studio in 2023, this acquisition is part of the Group's strategy to expand its Live Events division. See Note 3 - Significant events that occurred in 2025

Acquisition of Double Dutch (UK)

Banijay exercised its Control Call Option in Double Dutch on January 17th, 2025, thereby acquiring a 50.1% majority interest in the share capital of Double Dutch Productions.

Acquisition of Influence Vision (Austria)

Banijay exercised its Control Call Option in Influence Vision on May 20th, 2025, thereby acquiring a 51% majority interest in the share capital of Influence Vision.

The aggregated amounts recognized at the acquisition date for each major class of assets acquired and liabilities assumed in the consolidated statement of financial position are the following:

<i>In € million</i>	2025.12
Non-current assets	16.6
Current assets	28.7
Assets	45.3
Non-controlling interests	(0.6)
Non-current liabilities	6.4
Current liabilities	35.6
Liabilities	42.0
Aggregated Acquired assets and liabilities	4.0

The aggregated acquisition price for the business acquired in 2025 and the aggregated amount of goodwill recognized from the 2025 business acquisitions are the following:

<i>In € million</i>	2025.12
Total consideration	30.9
Satisfied by:	
Cash ⁽¹⁾	11.4
Other price consideration elements ⁽²⁾	(0.6)
Contingent consideration arrangement ⁽³⁾	20.1
Less (Aggregated acquired assets and liabilities)	(4.0)
Aggregated Goodwill	26.9

⁽¹⁾ Cash consideration only includes current year's acquisition, not deferred payments related to previous year's acquisitions

⁽²⁾ Warranty clause related to current year acquisition

⁽³⁾ Relates to liability on earn-out and put option (note 19.5)

The total amount of the acquisition goodwill in 2025 amount to €26.9 million (note 14.1).

<i>In € million</i>	2025.12
Net cash outflows arising on acquisition:	
Cash consideration ⁽¹⁾	17.3
Less: cash and cash equivalents balances acquired	(3.6)
Purchases of consolidated companies, net of acquired cash	13.7
Acquisition costs ⁽²⁾	2.4
Cash out on earn-out and put options	25.3
Purchases of consolidated companies, net of acquired cash and other liabilities related to business combinations	41.4

⁽¹⁾ Cash consideration includes both current year acquisitions, and deferred payments related to prior year acquisitions for €5.8 million

⁽²⁾ of which -€0.1 million related to 2025 acquisition, the remaining concerning other current M&A projects or prior years acquisition costs cash out (completed or abandoned projects)

The purchase price allocation of all those acquisitions is still under progress at the date of issuance of these consolidated financial statements.

The total amount of the acquisition cash and cash equivalents balances acquired in 2025 amount to €3.6 million (note 25.4).

Current year acquired consolidated companies contributed €46.4 million to the Group's revenue and €5.7 million to the Group's current operating profit for the period between the date of acquisition and the reporting date.

13.2 Investment in non-controlled joint ventures

In 2025, no significant investments other than those disclosed in note 18.1

All investment in non-controlled JV are disclosed in note 18.1 and note 25.5.

Note 14 GOODWILL

14.1 Change in Goodwill

Goodwill as of 31 December 2025 and 2024 is as follows:

<i>In € million</i>	Production	Distribution	Gross value	Impairment	Goodwill, net
1 January 2025	2,373.6	342.2	2,715.7	-	2,715.7
Acquisitions ⁽¹⁾	26.9	-	26.9	-	26.9
Divestures	(0.3)	-	(0.3)	-	(0.3)
Reclassifications	-	-	-	-	-
Exchange difference	(28.0)	(1.4)	(29.4)	-	(29.4)
31 December 2025	2,372.2	340.8	2,712.9	-	2,712.9

⁽¹⁾ The €26.9 million increase in production is due to current year acquisitions, mainly Lotchi (France), Double Dutch (The UK), Influence Vision (Austria) and Werktitel (The Netherlands), described in note 13.1.

<i>In € million</i>	Production	Distribution	Gross value	Impairment	Goodwill, net
1 January 2024 (Restated)	2,521.1	146.0	2,667.1	-	2,667.1
Acquisitions ⁽¹⁾	34.5	-	34.5	-	34.5
Divestures ⁽²⁾	(1.5)	(0.0)	(1.5)	-	(1.5)
Reclassifications	(195.0)	195.0	0.0	-	0.0
Exchange difference	14.5	1.1	15.6	-	15.6
31 December 2024	2,373.6	342.2	2,715.7	-	2,715.7

⁽¹⁾ €34.5 million increase in production were due to 2024 acquisitions of which Caryn Mandabach Productions (Garrison Drama), GloNation, Authentic Media, and Procidis.

⁽²⁾ Divestures of - €1.5 million following disposal of Tooco (France) and Stephen David Entertainment LLC (The USA)

The operating segments reviewed by the entity's chief operating decision maker ("CODM") have been revised, leading to a retrospective reallocation of segment information (see Note 4). In the internal reporting, the contribution of the format distribution activity in the Netherlands (revenue, margin, free cash flow), previously included within CGU2 of the Production segment, is now allocated to the Distribution segment (CGU4 – Distribution / Rights). Accordingly, the associated goodwill has been reallocated from the Production segment to the Distribution segment of -€195 million. In accordance with IAS 36.87–88, when the composition of cash-generating units ("CGUs") changes, the Group is required to reallocate goodwill to the affected CGUs using a relative value approach, unless another method is more appropriate. Consequently, the related goodwill has been reallocated from the Production segment to the Distribution segment.

The next chapter describes the impairment tests performed on goodwill, which was conclusive for no need for an impairment constitution.

14.2 Impairment tests

The Group tests goodwill annually for impairment, or more frequently if there are indications that goodwill might be impaired. This impairment test is performed by comparing the recoverable amount of each cash generating unit (CGU) with the carrying value of the corresponding assets (note 2.3.5).

The CGU's are based on the two operating segments (Production activities and Distribution activities) corresponding to the Group's internal management reporting structure in order to facilitate decision-making with respect to the allocation of resources and assessment of the performance of the operations.

Into the production activities, the operating divisions are regrouped through three CGU's based on their common characteristic of revenue / clients and relative importance.

Banijay's operations are managed through these four CGUs, same as of December 31, 2025 and 2024:

- The Production segment is analyzed through three geographical CGUs:
 - CGU 1: The United Kingdom – The USA, the Latin America region (LATAM) – Australia, New Zealand – India – Israel
 - CGU 2: The Nordic countries – Netherlands – Belgium – Germany – Poland
 - CGU 3: France – Spain – Italy – Portugal – United Arab Emirates – Saudi Arabia

Balich Wonder Studio (with headquarter in Italy and operating in Saudi Arabia and United Arab Emirates) and Lotchi (in France) contributions are allocated to the CGU 3 (historically Southern Europe), given similar operating flows between live events activities and audiovisual production and as forecasted cash out flows contribution are below 10% of total group.

- The Distribution segment corresponds to one CGU:
 - CGU 4: Distribution / Rights

The recoverable value of the CGUs has been measured based on the following key assumptions:

<i>In million €</i>	2025.12	2024.12
WACC	8.94%	8.86%
Infinite growth rate	2.25%	2.75%
Financial projections based on	2026 budget and 2027-2029 business plan	2025 budget and 2026-2028 business plan

The projections include estimates for the inflation rates as well as the cost savings that have been realized and are to be realized from several cost savings initiatives for which the entity is committed at the closing date. By their nature, forward-looking statements involve risks and uncertainties as they relate to events and depend on circumstances that may or may not occur in the future. Accordingly, actual results of operations, financial condition and liquidity may differ from those assumed in the forward-looking statements.

2025.12

<i>In million €</i>	Goodwill	Assets tested (Carrying value)⁽¹⁾
CGU 1 : UK - USA - Australia - India - LATAM - Israel	1 162.2	1 314.5
CGU 2 : Nordics – Netherlands - Belgium – Germany - Poland	465.5	455.7
CGU 3 : France – Spain - Portugal – Italy - SAR - UAE	744.5	852.6
Production Business	2 372.2	2 622.8
CGU 4 : Rights	340.8	379.7
Distribution Business	340.8	379.7
Total	2 712.9	3 002.5

⁽¹⁾ Carrying value includes Goodwill, intangible and tangible assets, and net working capital requirement at the percentage of ownership in the group

Results of impairment tests

Based on the impairment tests conducted, no impairment needs to be charged against goodwill, intangible and tangible assets.

Sensitivity to changes in assumptions.

The sensitivity of impairment tests to adverse, feasible changes in assumptions is set out below, by main business (Production vs Distribution):

- reasonable sensitivity to changes in the discount rate: a simulated increase of up to 1 percentage point in the discount rate used would not change the findings of the Group's analysis.
- reasonable sensitivity to changes in the long-term growth rate: in a pessimistic scenario where the long-term growth rate is reduced by 0.5 percentage points, the value in use of each CGU would still exceed its carrying amount;
- reasonable sensitivity to changes in the business plans: a 10% reduction in the revenue forecast contained in the business plan, with variable costs adjusted accordingly, would not change the conclusions of the Group's analysis.

Consequently, none of the sensitivity tests reduced the value in use of any of the CGUs to below their carrying amount.

No impairment needed in 2025.

Note 15 INTANGIBLE ASSETS

Intangible assets comprise mainly content assets, both acquired and developed internally, scripted programs with an international potential, distribution advances with third parties, software and intangible assets recognized as part of purchase price allocation (PPA).

Other intangible assets include rights for the movie adaptation of books.

In € million	2025		2025.12

(1) The "Reclassification and others" caption is mainly related to contracts' modifications.

The maturity profile of the Group's lease liabilities based on contractual undiscounted payments is as follows:

Source: Amelkis

<i>In € millions</i>	2025.12	2024.12
Due in less than one year	46.2	43.2
Due between one to five years	79.5	106.7
Due in more than five years	28.4	19.2
Total	154.1	169.1

17.3 Low value leases and short-term leases

Rental expenses recognized in external purchases for the year ended 31 December 2025 and 2024 amounted to €90.2 million and €96.3 million, respectively. These expenses mostly concern short-term contracts related to studios, equipment and facilities leased as part of productions incurred by the Content production & distribution business that are qualified as low value assets and/or short-term leases.

Note 18 INVESTMENTS IN ENTITIES ACCOUNTED UNDER THE EQUITY METHOD

18.1 Main investments in associate and joint ventures

<i>In € million</i>	2025.12	2024.12
Value as of 1 January	29.7	31.7
Results of the period	(2.6)	(4.4)
Impairment (1)	(10.0)	-
Share of net income from associates & joint ventures	(12.6)	(4.4)
Other impairment (1)		(2.4)
Dividend paid	(0.1)	(0.3)
Capital increase (2)	0.5	13.9
Change in consolidation scope (3)	(0.4)	1.5
Foreign currency translation reserve	(1.4)	0.9
Negative equity portion transferred to provisions for financial risk and impairment of financial receivables	(0.3)	(0.1)
Reclassification in loan (4)		(11.1)
Others	0.5	0.2
Value as of 31 December	15.9	29.7

⁽¹⁾ In 2025, following fair value measurement based on expected performance, impairments have been booked in "impairment of participation in associates" o/w Greenboo (Italy). In 2024, the impairments are booked in P&L under "Other finance income/(costs)"

⁽²⁾ In 2024, Capital increase is mostly related to investments in Hyphenate Media Group (USA), Greenboo (Italy) and Esmeralda (the UK) of which €8.5 million of cash investment (note 25.5) and €5.4 million of capitalization of debt

⁽³⁾ The main contributors of Change in consolidation scope (equity to full consolidation) are Double Dutch & Influence Vision in 2025 and Shine Fiction & Marathon in 2024 (Note 13)

⁽⁴⁾ In 2024 the decrease in investments in associate concerns Financière EMG due to a partial capital reimbursement from the entity that has been converted into a convertible loan (notes 18.2 and 23.1)

The breakdown of investments in entities accounted under the equity method as of 31 December 2025 and 2024 is as follows:

<i>In € million</i>	2025.12	2024.12
Hyphenate Media Group	5.9	9.7
Conker Pictures Ltd	3.2	1.2
Esmeralda	2.8	3.4
Rabbit Track	1.9	2.1
Dynamic Ally	1.1	0.5
GreenBoo	0.0	8.0
Immovable	0.0	2.1
Influence Vision	0.0	1.7
BD4 Productions	0.0	0.3
Other Investments in Associates	1.0	0.7
Value as of 31 December	15.9	29.7

Percentage of interest is disclosed in note 32.2

18.2 Net exposure in associate and joint ventures

Net exposure of associates and joint ventures is net of shares in associates, net current accounts, loan receivables and provisions as of December 2025:

<i>In € million</i>	<i>Shares in associates</i>	<i>Net current accounts (1)</i>	<i>Net non current loans, financial assets (1)</i>	<i>Financial debt</i>	<i>Provisions</i>	2025.12

Other Investments in Associates	0.9		0.0			0.9
Value as of 31 December	15.9	-	20.7	(6.0)	(0.8)	29.8

(1) See note 23.1

Net exposure of associates and joint ventures is net of shares in associates, net current accounts, loan receivables and provisions as of December 2024:

<i>In € million</i>	<i>Shares in associates</i>	<i>Net current accounts (1)</i>	<i>Non current loans, financial assets (1)</i>	<i>Financial debt</i>	<i>Provisions</i>	<i>2024.12</i>
GreenBoo	8.0		4.5			12.5
Financière EMG	-		11.6			11.6
Hyphenate Media Group	9.7		6.2	(6.2)		9.7
Influence Vision	1.7	1.9				3.6
Esmeralda	3.4					3.4
Immovable	2.1					2.1
Rabbit Track	2.1					2.1
Conker Pictures Ltd	1.2					1.2
BD4 Productions	0.3		0.5			0.8
Dynamic Ally	0.5					0.5
Other Investments in Associates	0.7	0.0	-		(1.0)	(0.3)
Value as of 31 December	29.7	1.9	22.7	(6.2)	(1.0)	47.2

(1) See note 23.1

18.3 Financial information related to 100% of the main JVs in terms of contribution

Cumulated financial information of the main JVs, corresponding to Hyphenate Media Group and Financière EMG (30 June 2025 – latest certified financial statement available at the time of preparing those notes for Financière EMG):

<i>In € million</i>	<i>2025.12</i>	<i>2024.12</i>
Non-current assets	446.1	475.2
Current assets	120.2	160.7
Total assets	566.3	636.0
Total Equity	(148.0)	(58.0)
Non-current liabilities	499.5	435.5
Current liabilities	214.8	258.5
TOTAL LIABILITIES	566.3	636.0
Revenue	249.3	349.9
Net result	(45.3)	(27.3)

Note 19 WORKING CAPITAL BALANCES

19.1 Production - work in progress

Work in progress mainly corresponds to costs incurred in the production of:

- Audiovisual programs, non-scripted programs (or scripted programs for which the Group does not expect subsequent Intellectual Property revenue in the future)
- Live events production

Those productions have not been delivered at reporting date, as the group recognizes its production revenue upon delivery of the materials to the customer.

19.2 Trade receivables

The breakdown of trade and other receivables as of 31 December 2025 and 2024 is as follows:

<i>In € million</i>	2025.12	2024.12
Trade receivables, gross	498.4	500.9
Depreciation	(11.2)	(12.9)
TRADE RECEIVABLES, NET	487.2	487.9

Clients and related accounts, net consist of trade receivables pending to be collected, or which have been sold on a recourse basis, and unbilled receivables.

Overdue but not impaired debtors at the end of 2025:

Trade debtors and related accounts	Debt not yet due	Overdue but not impaired debt			
		< 3 months	> 3 months < 6 months	> 6 months and < 1 year	> 1 year
487.2	410.9	53.5	6.6	11.1	5.1

At December 31, 2025, 15.7% of the debtors are due and not written down. Such debtors are not depreciated because they do not present any risk of recoverability and foreseeable cash collection is still expected in a reasonable period.

Overdue but not impaired debtors at the end of 2024:

Trade debtors and related accounts	Debt not yet due	Overdue but not impaired debt			
		< 3 months	> 3 months < 6 months	> 6 months and < 1 year	> 1 year
487.9	403.7	62.0	10.1	5.6	6.5

At December 31, 2024, 17.3% of the debtors are due and not written down. Such debtors were not depreciated because they do not present any risk of recoverability and foreseeable cash collection is still expected in a reasonable period.

Allowance for trade receivables at the end of 2025:

In € millions	December 31, 2024	Allowance for the year	Used	Not used	Reclassification or transfer	Exchange difference	Changes in consolidation scope	December 31, 2025
Allowance for trade receivable	(12.9)	(0.4)	0.7	0.0	0.9	0.6	.0	(11.2)

Allowance for trade receivables at the end of 2024:

In € millions	December 31, 2023	Allowance for the year	Used	Not used	Reclassification or transfer	Exchange difference	Changes in consolidation scope	December 31, 2024
Allowance for trade receivable	(15.1)	(1.9)	0.9	0.0	0.8	(0.4)	(2.9)	(12.9)

19.3 Other non-current and current assets

The breakdown of other non-current and current assets as of 31 December 2025 and 2024 is as follows:

In € million	2025.12	2024.12
Trade receivables, LT	40.9	33.2
Income tax receivables, LT	4.3	0.1
Receivables from disposals of assets, LT	0.6	-
Other, LT	1.9	1.7
OTHER NON-CURRENT ASSETS	47.6	34.9

Trade receivables LT are mainly concerning the distribution activities with payment expected for up to five years. Corresponding payables to right owners are booked in other non-current liabilities (note 19.5).

In € million	Note	2025.12	2024.12
Tax receivables, excluding income tax		77.7	103.6
Grants receivables (1)		135.1	153.1
Income tax receivables		16.7	4.6
Prepaid expenses		21.9	22.5
Production-related receivables		10.8	9.2
Receivables from disposals of assets		1.0	4.6
Employment-related earn-out and option, ST	7.4	0.0	0.0
Others		14.3	11.4
OTHER CURRENT ASSETS		277.4	309.0

⁽¹⁾ Grants receivable amounted to €135.1 million and concerned audiovisual tax credit mostly related to the production of fiction.

19.4 Customer contract liabilities

Customer contract liabilities as of 31 December 2025 and 2024 are as follows:

In € million	2025.12	2024.12
Deferred revenue	565.2	606.4
Customer contract liabilities	565.2	606.4

The €565.2m deferred revenue as of December 2025 mainly relates to undelivered programs that are work-in-progress (or intangible assets-in-progress) and that have already been invoiced. Those deferred revenues correspond to the contract liabilities (under IFRS 15).

Revenue recognized in 2025 that was included in the customer contract liability balance at the beginning of the period:

In € millions	December 31, 2024	Revenue recognised in 2025	Revenue not recognised yet
Deferred income	606.4	557.8	48.6
		92.0%	8.0%

The remaining performance obligation corresponds to firm commitments (or closed sales)

The transaction price allocated to the remaining performance obligations (unsatisfied or partially unsatisfied) as of 31 December 2025 totaled €2,695 million, including €2,034 million within one year and €661 million beyond one year (€2,770 million, including €2,191 million within one year and €579 million beyond one year, respectively in 2024).

The remaining performance obligations should essentially cover the revenue to be recognized for undelivered productions and for sales of finished tapes/formats for which the rights are not opened.

19.5 Other non-current and current liabilities

Other non-current liabilities as of 31 December 2025 and 2024 are as follows:

In € million	Note	2025.12	2024.12
Long-term liabilities on earn-out and put option		110.7	96.3
Employee long term incentive plan, LT	7.3.2	92.7	124.5
Other employee-related liabilities, LT		2.9	3.2
Employment-related earn-out and option obligation, LT	7.4	74.4	55.7
Other non-current liabilities		55.5	47.7
Other non-current liabilities		336.2	327.4

Other current liabilities as of 31 December 2025 and 2024 are as follows:

In € million		2025.12	2024.12
Employee-related payables (accruals for paid leave, bonuses and other)		100.1	96.4
National, regional and local taxes other than income tax		77.6	81.6
Short-term liabilities on earn-out and put option		17.5	26.2
Income tax liabilities		22.6	27.1
Employee long term incentive plan, ST	7.3.2	39.6	12.8
Employment-related earn-out and option obligation, ST	7.4	24.0	15.4
Payable on fixed asset purchase		13.6	24.4
Production-related payables (1)		26.1	32.4
Other current liabilities		21.7	39.9
Other current liabilities		342.9	355.9

⁽¹⁾ Production-related payables amounted to €26.1 million including €10.0 million in America, and €10.0 million in the United Kingdom in 2025.

Liabilities on earn-out and put options reflect the commitments to purchasing non-controlling interests amounts, as well as the liabilities regarding contingent consideration arrangements on business acquisitions. The Group estimates these debts based on contractual agreements and using assumptions on future profits. The present value of the scheduled cash outflows is computed using a discount rate.

Employee-related long-term incentives include cash-settled share-based payment liabilities.

They are both classified under level 3 (inputs not based on observable market data).

The following table discloses the variation in liabilities on earn-out and put option:

<i>In € million</i>	2025.12	2024.12
Liabilities on earn-out and put option as of 1 January	122.5	111.8
Scope entry ⁽¹⁾	20.1	15.1
Remeasurement through P&L	4.3	(1.4)
Discounting through P&L	10.6	7.4
Repayments	(25.3)	(13.6)
Translation differences	(4.1)	3.3
Liabilities on earn-out and put option as of end of period	128.2	122.5
<i>Of which current</i>	17.5	26.2
<i>Of which non-current</i>	110.7	96.3

⁽¹⁾ Valorization of the put option of Lotchi in 2025 and first accounting of new put agreement on entities already controlled in 2024

Note 20 CHANGES IN SHAREHOLDERS EQUITY

20.1 Equity

<i>In € millions</i>	Share capital	Share premiums	Own shares
1 January 2025	103.3	514.1	(8.8)
Capital increase (1)	4.3	79.0	-
Own Shares buy-back (2)	-	-	(28.4)
Cancellation of own shares	(1.0)	(27.4)	28.4
Refund of share premiums	-	(30.2)	-
Attribution of frees shares	-	-	8.8
31 December 2025	106.5	535.5	-

⁽¹⁾ Capital increase of which incorporation of the remaining shareholder loan with Banijay Group NV, converted into capital for €63 million (2,208,976 shares) and warrants exercise by a key manager for €20.3 million (2,069,028 shares) – see note 25.7

⁽²⁾ Banijay has repurchased 1,003,350 “Own shares” during the period for €28.4

As of 31 December 2025, the share capital of Banijay Group amounts to €106,533,471 (106,533,471 shares of €1.0 each).

Own Share transactions

As of the end of December 2025, Banijay no longer holds any treasury shares, following the allocation of 323,008 shares in July 2025.

20.2 Share-based payment

In 2024 and 2025, the share-based payment equity settled is related to the free share plans described in note 7.3.

The counterpart in equity of the services costs amounts to €2.5 million in 2025 vs €3.0 million in 2024.

20.3 Distribution

The Company has granted the following dividend distribution:

<i>Year</i>	Dividend / Shares premium (in €)	Dividend / shares premium per share (in €) ⁽¹⁾
2023 ⁽²⁾	54,815,000.0	0.528
2024 ⁽³⁾	60,064,000.0	0.581
2025 ⁽⁴⁾	32,277,359.2	0.303

⁽¹⁾ Dividend (or refund of share premium) per share based on the number of shares at the time of the distribution

⁽²⁾ Dividend paid

⁽³⁾ Refund of shares premium

⁽⁴⁾ Refund of shares premium (€30.2 million) and dividend paid (€2.1 million)

20.4 Changes on non-controlling interest and other variation

In 2025, the changes on non-controlling interest and other variation are impacted as follows:

In € millions	Shareholders' equity	Non-controlling interests	2025.12
Dividends (effect of Put / call instruments on % of interest) ⁽¹⁾	(8.1)	8.1	-
Others ⁽²⁾	(0.1)	(0.6)	(0.8)
Total consolidated equity	(8.2)	7.5	(0.8)

⁽¹⁾ At consolidation level, the presence of put and call options over minority affect the interest rate applied, leading to a reclassification between dividends paid to shareholders and non-controlling interests (note 2.3.17).

⁽²⁾ This reflects Influence Vision's non-controlling interest after the takeover in 2025.

In 2024, the changes on non-controlling interest and other variation are impacted as follows:

In € millions	Shareholders' equity	Non-controlling interests	2024.12
Dividends (effect of Put / call instruments on % of interest) ⁽¹⁾	(6.0)	6.0	-
1st accounting put option on entity already controlled	(17.5)	(1.5)	(18.9)
Others	0.2	(0.0)	0.1
Total consolidated equity	(23.3)	4.5	(18.8)

⁽¹⁾ At consolidation level, the presence of put and call options over minority affect the interest rate applied, leading to a reclassification between dividends paid to shareholders and non-controlling interests (note 2.3.17).

20.5 Non-controlling interest

In 2025 and 2024, the non-controlling interests are as follows:

In € million		31 December 2025						
Name of the subsidiary	Accumulated NCI as of 01.01.2025	Profit for the period	Foreign exchange difference	Changes in scope	Dividends distributed to NCI	Others	Accumulated NCI as of 31.12.2025	
Balich	8.8	2.0	(0.9)	0.0	-	(0.0)	9.9	
RESPIRATOR MEDIA & DEV - Den.	4.2	-	(0.0)	(0.0)	(4.2)	-	-	
La Liga Studios	2.6	(2.1)	-	-	-	-	0.5	
DLO PRODUCCIONES	1.8	1.2	-	-	(0.4)	-	2.6	
Easy Peasy	1.0	0.3	-	(0.0)	(0.3)	-	1.0	
Others	0.0	0.5	0.0	(0.1)	(9.7)	7.7	(1.6)	
TOTAL	18.6	1.8	(0.9)	(0.2)	(14.5)	7.7	12.4	

In € million		31 December 2024						
Name of the subsidiary	Accumulated NCI as of 01.01.2024	Profit for the period	Foreign exchange difference	Changes in scope	Dividends distributed to NCI	Others	Accumulated NCI as of 31.12.2024	
Balich	12.6	(2.7)	0.6	(0.1)	(1.6)	(0.0)	8.8	
RESPIRATOR MEDIA & DEV - Den.	4.1	0.1	(0.0)	-	-	-	4.2	
La Liga Studios	2.8	(0.1)	-	-	-	-	2.6	
DLO PRODUCCIONES	1.5	0.6	-	-	(0.3)	-	1.8	
Easy Peasy	1.0	0.1	-	-	-	-	1.0	
Others	1.5	1.4	0.1	(1.6)	(7.6)	6.2	0.0	
TOTAL	23.6	(0.7)	0.7	(1.8)	(9.5)	6.2	18.6	

Note 21 EARNINGS PER SHARE

Basic earnings per share is calculated by dividing attributable profit by the weighted average number of ordinary shares outstanding during the year, excluding treasury shares on a pro rata basis.

Diluted earnings per share is calculated by taking into account all financial instruments carrying deferred rights to the parent company's capital, issued either by the parent company itself or by any one of its subsidiaries. Dilution is calculated separately for each instrument, based on the conditions prevailing at the end of the reporting period and excluding anti-dilutive instruments.

21.1 Basic earnings per share

<i>In € million, except for per share data and number of shares</i>	2025.12	2024.12
Profit for the year attributable to owners of the parent	13.9	2.9
Average number of shares outstanding ⁽¹⁾	106,191,498	103,324,165
Earnings per share attributable to owners of the parent (in €)	0.13	0.03

⁽¹⁾ Excluding own shares

21.2 Diluted earnings per share

<i>In € million, except for per share data and number of shares</i>	2025.12	2024.12
Profit for the year attributable to owners of the parent	13.9	2.9
Diluted profit attributable to owners of the parent	13.9	2.9
Average number of shares outstanding ⁽¹⁾	106,191,498	103,324,165
Impact of free shares	236,952	516,513
Impact of Warrants (BSA)	517,257	2,586,285
Diluted average number of shares outstanding*	106,945,706	106,426,963
Diluted earnings per share attributable to owners of the parent (in €)	0.13	0.03

⁽¹⁾ Excluding own shares

Note 22 PROVISIONS AND CONTINGENT LIABILITIES

22.1 Provisions

The change in provisions between 1 January 2025 and 31 December 2025 was as follows:

<i>In € million</i>	Commercial claims and litigation	Restructuring plan	Employee defined benefit obligation	Other	Total
As of 1 January 2025	13.7	3.6	15.9	14.9	48.2
Additions (1)	1.3	1.1	1.9	1.6	6.1
Releases	(2.6)	(3.5)	(0.5)	(0.8)	(7.4)
<i>Of which used</i>	<i>(1.2)</i>	<i>(3.2)</i>	<i>(0.5)</i>	<i>(0.3)</i>	<i>(5.2)</i>
<i>Of which unused (2)</i>	<i>(1.4)</i>	<i>(0.3)</i>	-	<i>(0.5)</i>	<i>(2.2)</i>
Reclassifications and others	(0.6)	2.0	(1.5)	(0.9)	(1.0)
Translation adjustment	(0.1)	0.0	(0.2)	(0.0)	(0.2)
Change in scope of consolidation and other	-	-	0.0	1.2	1.2
As of 31 December 2025	11.8	3.3	15.7	15.9	46.7
<i>Of which non-current provisions</i>	<i>9.4</i>	<i>0.6</i>	<i>15.7</i>	<i>3.2</i>	<i>28.9</i>
<i>Of which current provisions</i>	<i>2.5</i>	<i>2.7</i>	-	<i>12.7</i>	<i>17.8</i>

(1) *Of which €2.0 million in recurring operating profit*

(2) *Of which -€1.7 million in recurring operating profit*

(3) *Reclassifications and others mainly related to investments in associates – impairment on group current account to provisions for financial loss*

The change in provisions between 1 January 2024 and 31 December 2024 was as follows:

<i>In € million</i>	Commercial claims and litigation	Restructuring plan	Employee defined benefit obligation	Other	Total
As of 1 January 2024	13.1	1.9	15.5	15.3	45.8
Additions (1)	4.4	7.3	1.8	3.3	16.8
Releases	(2.1)	(5.6)	(0.7)	(5.7)	(14.1)
<i>Of which used</i>	<i>(1.3)</i>	<i>(5.5)</i>	<i>(0.7)</i>	<i>(3.0)</i>	<i>(10.6)</i>
<i>Of which unused (2)</i>	<i>(0.7)</i>	<i>(0.1)</i>	-	<i>(2.7)</i>	<i>(3.5)</i>
Reclassifications and others (3)	(1.7)	(0.0)	(0.7)	0.7	(1.7)
Translation adjustment	(0.0)	0.0	0.1	0.1	0.2
Change in scope of consolidation and other	-	-	(0.0)	1.2	1.1
As of 31 December 2024	13.7	3.6	15.9	14.9	48.2
<i>Of which non-current provisions</i>	<i>10.9</i>	-	<i>15.9</i>	<i>3.6</i>	<i>30.4</i>
<i>Of which current provisions</i>	<i>2.9</i>	<i>3.6</i>	-	<i>11.3</i>	<i>17.8</i>

(1) *Of which €2.1 million in recurring operating profit*

(2) *Of which -€0.7 million in recurring operating profit*

(3) *Reclassifications and others include mainly reclassifications related to investments in associates – impairment on group current account to provisions for financial loss*

Employee defined benefit obligation (post-employment benefits)

The group is part of some defined benefit schemes by contributing to pension plans and other post-employment benefits mainly in Germany, France and Italy.

Other provisions

All disputes (type, amounts, procedure and level of risk) are identified by the Legal Department of the group which ensures regular monitoring. The amount of provisions for the claims result from a case-by-case analysis, depending

on the positions of the litigants, on the estimation of the risks by the group's legal advisors and on first instance decisions, if any.

It also includes provision for financial risks mainly corresponds to the negative equity of the entities consolidated under equity method or non-consolidated as it is the group's responsibility to cover those losses if needed.

22.2 Contingent liabilities

The United Kingdom

On 11th October 2023, the UK government's Competition and Markets Authority (CMA) opened an investigation under section 25 of the Competition Act 1998 into concerns about the purchase of services from freelance providers, and the employment of staff, who support the production, creation and/or broadcast of television content in the UK. The Banijay UK label "Tiger Aspect" was included in the investigation as were some UK broadcasters and other UK production companies.

The CMA has confirmed that as of 21 March 2025, competition case has been closed for reason of administrative priority.

Note 23 FINANCIAL ASSETS AND LIABILITIES

23.1 Current and non-current financial assets

Financial assets comprise financial interests in non-consolidated companies, loans, deposits and current accounts with third parties.

<i>In € million</i>	2025.12	2024.12
Financial interests in non-consolidated companies (1)	9.6	10.5
Non-current Loans, guarantee instruments and other financial assets (2)	30.8	37.4
Non-current derivative financial assets	0.3	5.3
Non-current financial assets	40.7	53.2
Current loans, guarantee instruments and other financial assets	18.5	19.5
Current accounts	0.0	1.9
Current derivative financials assets	2.7	13.2
Current financial assets	21.2	34.6
TOTAL FINANCIAL ASSETS	61.9	87.8
<i>Non-current financial assets</i>	40.7	53.2
<i>Current financial assets</i>	21.2	34.6

Derivatives comprise foreign exchange and interest rate hedging, which are measured at fair value.

- (1) *Financial interests in non-consolidated companies mostly related to Segme Bunim (the USA) and My Major Company (France)*
- (2) *Non-current loans, guarantee instruments and other financial assets comprise loans granted to non-controlled joint ventures amounting to €20.7 million in 2025 (including €11.6 million to Financière EMG, €6.0 million to Hyphenate Media Group and €3.1 million to BD4 Productions), compared with €22.7 million in 2024 (€11.6 million to Financière EMG, €6.0 million to Hyphenate Media Group, €4.5 million to Greenboo and €0.5 million to BD4 Productions). This line item also includes deposit balances.*

23.2 Cash and cash equivalents

Cash and cash equivalents are presented net of bank overdrafts in the consolidated cash-flow statement.

<i>In € million</i>	2025.12	2024.12
Marketable securities	0.9	0.5
Cash	263.5	271.8
Cash and cash equivalents - Assets	264.4	272.4
Bank overdrafts	(0.7)	(1.1)
NET CASH AND CASH EQUIVALENTS	263.6	271.2

23.3 Current and non-current financial Liabilities

In € million	2025.12		
	Non-current	Current	Total
Bonds	874.0	-	874.0
Bank borrowings	1,445.9	112.8	1,558.6
Shareholder loan	21.1	-	21.1
Bank overdrafts	-	0.7	0.7
Accrued interests on bonds and bank borrowings	-	26.1	26.1
Derivatives - Liabilities	49.5	0.8	50.4
TOTAL FINANCIAL LIABILITIES	2,390.5	140.4	2,530.9

In € million	2024.12		
	Non-current	Current	Total
Bonds	1,130.2	-	1,130.2
Bank borrowings	1,138.1	143.8	1,281.9
Shareholder loan	175.0	-	175.0
Accrued interests on bonds and bank borrowings	-	24.9	24.9
Bank overdrafts	-	1.1	1.1
Derivatives - Liabilities	3.5	2.0	5.5
TOTAL FINANCIAL LIABILITIES	2,446.8	171.8	2,618.6

The variation in the financial liabilities breaks down as follows:

In € million	1 January 2025	Cash-flows			Non cash-flows		31/12/2025
		Increase ⁽²⁾	Repayment	Other cash items	Other non cash items	Foreign exchange	
Bonds	1 130.2	-	(229.0)	-	17.4	(44.6)	874.0
Bank borrowings ⁽¹⁾	1 281.9	439.2	(91.1)	2.5	(8.7)	(65.2)	1 558.6
Shareholder loan ⁽³⁾	175.0	26.3	(117.2)	-	(63.0)	-	21.1
Bank overdrafts	1.1	-	(6.7)	-	0.3	6.1	0.7
Accrued interests on bonds and bank borrowings	24.9	-	-	-	1.9	(0.7)	26.1
Derivatives - Liabilities	5.5	-	-	(2.9)	47.8	(0.1)	50.4
TOTAL FINANCIAL LIABILITIES ⁽²⁾	2 618.6	465.5	(444.0)	(0.4)	(4.3)	(104.5)	2 530.9

⁽¹⁾ The line "Repayment of borrowings and other financial liabilities" in the cash-flow statement also includes the lease repayments for an amount of -€41.8 million. The other cash items of €2.5 million are related for -€3.5 million credit lines linked to production included in the variation of working capital of the cash-flow statement and -€1 million of issuances costs on the repricing of the TLB's included in the variation of interests paid.

⁽²⁾ The Total Financial Liabilities include bank overdrafts while it is excluded from the line "Proceeds from borrowings and other financial liabilities" and "Repayment of borrowings and other financial liabilities" in the cash-flow statement.

⁽³⁾ The shareholder loan with BG NV of €175.0 million has been repaid for -€112.0 million and has been capitalized for -€63.0 million. At end of December 2025 a shareholder loan of €21.1 million including accrued interests have been taken out.

In € million	1 January 2024	Cash-flows			Non cash-flows		31 december 2024
		Increase ⁽²⁾	Repayment	Other cash items	Other non cash items	Foreign exchange	
Bonds	1,269.3	-	(171.0)	-	9.2	22.6	1,130.2
Bank borrowings ⁽¹⁾	1,228.8	34.30	(29.0)	5.9	7.7	34.3	1,281.9
Shareholder loan	-	175.00	-	-	-	-	175.0
Accrued interests on bonds and bank borrowings	37.0	-	-	-	(12.8)	0.6	24.9
Bank overdrafts	1.4	3.5	-	-	0.5	(4.3)	1.1
Derivatives	6.4	-	-	-	(0.9)	0.0	5.5
TOTAL FINANCIAL LIABILITIES ⁽²⁾	2,542.8	212.8	(200.0)	5.9	3.7	53.3	2,618.6

⁽¹⁾ The line "Repayment of borrowings and other financial liabilities" in the cash-flow statement also includes the lease repayments for an amount of -€40.8 million. The other cash items of -€5.9 million are related to credit lines linked to production included in the variation of working capital of the cash-flow statement.

⁽²⁾ The Total Financial Liabilities include bank overdrafts while it is excluded from the line "Proceeds from borrowings and other financial liabilities" and "Repayment of borrowings and other financial liabilities" in the cash-flow statement.

Characteristics of corporate bonds, term loans and corporate loans:

Residual nominal amount (in € millions)	31 December 2025	31 December 2024
- €540 million senior secured notes issued in 2023 and due in 2029, which priced at par and have a coupon of 7.0% per annum;	540.0	540.0
- \$400 million senior secured notes issued in 2023 and due in 2029, which priced at par and have a coupon of 8.125% per annum ⁽¹⁾ ;	340.4	385.0
- €400 million term loan B facility issued in 2025 and due in 2032, which bears interest at a rate of EURIBOR (3 months) ⁽²⁾ plus 3.25% per annum	400.0	-
- €555 million term loan B facility issued in 2023 and due in 2028, which bears interest at a rate of EURIBOR (3 months) ⁽³⁾ plus 3.25% per annum (after February 2025 repricing)	555.0	555.0
- \$560 million term loan B facility issued in 2023 and due in 2028 (remaining capital \$495.0m), which bears interest at a rate of SOFR USD (1 month) ⁽⁴⁾ plus 2.75% (after February 2025 repricing).	421.3	529.6
-€26 million shareholder loan issued by BG N.V in 2025 and due in January 2028, which bears interest at a rate of EURIBOR (3 months) plus 3.75% per annum	20.5	-
- €400 million senior notes issued in 2020 and due in 2026, which priced at par and have a coupon of 6.500% per annum; remaining capital stands at €229m after early redemption end in 2024 for €171m.	-	229.0
-€175 million shareholder loan issued by BG N.V in 2024 and due in 2030, which bears interest at a rate of EURIBOR plus 3.75%	-	175.0
	2 277.5	2 413.6

(1) Hedging characteristics of \$400m SSN

Starting February 2025, a new interest-rate and currency hedging instrument has been set up until Feb. 2028. This instrument, a Cross Currency Swap, has two main objectives:

- to hedge the risk of fluctuations in the EUR/USD exchange rate (Fx. rate per Eur. of c. \$ 1.037). The capital being hedged at €385.5m
- to lock in savings in financial interest at the level of SSN USD coupons (between 6.4% and 6.5%)

(2) Hedging characteristics of €400m TLB

Euribor 3-months is hedged through a 2.11% ~ 2.75% collar until April 2030

(3) Hedging characteristics of €555m TLB

- For €453m: Euribor 3-months is hedged September at c. 2.2% up to September 2028
- For €102m: Euribor 3-months is hedged through a 2.80% ~ 3.30% collar until September 2028

(4) Hedging characteristics of US\$560m TLB (remaining capital \$495m)

-An interest rate swap converting the variable SOFR-based rate into fixed rates of approximately 3.39% for \$438 million and 3.42% for \$55 million, both effective until March 2028.

Maturity of current and non-current debt (principal and interest)

In € million	Current		Non current		31/12/2025
	Less than 1 year	1 to 5 years	More than 5 years

CFH Derivatives - Liabilities	4.7	4.0
CFH Derivative - Assets	(0.3)	(12.3)
Net debt	2,263.6	2,327.8

23.5 Derivatives

The Group enters into derivative financial instruments in order to reduce its exposure to interest rate and foreign exchange risks. The primary objective of the Group's cash flow hedges is to mitigate foreign exchange risk on future cash flows (notional amounts and interest coupons) and to convert floating-rate debt into fixed-rate debt.

The Group uses three categories of derivative instruments:

- Interest rate derivatives related to the two corporate Term Loans

These instruments are designated as cash flow hedges in accordance with IFRS 9. The effective portion of their fair value changes is recognized in other comprehensive income (OCI).

- Foreign exchange swap instruments (FX Swaps)

These swaps are used to manage short-term foreign exchange exposures arising from treasury operations.

They are not designated as hedging instruments under IFRS 9, and their fair value variations are therefore recognized in profit or loss.

- Cross-currency swap (CCS) related to the USD Senior Secured Notes

This instrument is designated as a hedging instrument. The portion of its fair value change that relates to the principal and to interest recognized during the period is recorded in profit or loss, so as to offset the remeasurement of the underlying USD debt. The remaining portion, which relates to future interest cash flows not yet accrued, is recognized in other comprehensive income (OCI) as part of a cash flow hedge.

Fair Value Measurement and Impact of Derivative Instruments

The Group's derivative instruments have contractual maturities ranging from one to five years. Their fair value measurement during the reporting period was primarily influenced by changes in interest rates, as well as fluctuations in the EUR/USD, EUR/GBP, and EUR/AUD exchange rates, which represent the main observable market inputs in accordance with IFRS 13 – Fair Value Measurement.

For the year ended 31 December 2025, the change in fair value of cash flow hedge instruments resulted in a loss of €12.1 million, recognized in Other Comprehensive Income, consistent with the hedge accounting requirements of IFRS 9 – Financial Instruments for effective portions of qualifying hedges.

Fair value movements arising from derivative instruments that are not designated as cash flow hedges—primarily FX swaps and certain components of cross-currency swaps—were recognized directly in profit or loss. These movements amounted to:

- -€51.3 million for the period in relation to foreign exchange risk, including the hedging of the foreign-exchange-related profit and loss impact of certain financial instruments (notably the \$400 million senior secured notes) (see Note 11).
- €0.8 million for the period in relation to interest rate risk, reflecting the hedging of the variable-rate component of corporate Term Loans or the interest-rate leg of the cross-currency swaps on \$400 million senior secured notes.

Note 24 Financial Instruments

Fair value hierarchy

IFRS 13 Fair Value Measurement, establishes a fair value hierarchy consisting of three levels:

- Level 1: prices on the valuation date for identical instruments to those being valued, quoted on an active market to which the entity has access;
- Level 2: directly observable market inputs other than Level 1 inputs; and
- Level 3: inputs not based on observable market data (for example, data derived from extrapolations).

This level applies when there is no observable market or data and the entity is obliged to rely on its own assumptions to assess the data that other market participants would have applied to price other instruments.

Fair value is estimated for the majority of the Group's financial instruments, except for marketable securities for which the market price is used.

For financial assets and liabilities booked at amortized cost, fair value is not provided since the net book value represents a reasonable estimate of their fair value. Bonds instruments that booked at amortized costs are listed. Their fair value amounts as follows on 31 December 2025:

- €540m Senior Secured notes: index 103,625 which gave a fair value of €559.6 million
- \$400m senior secured notes: index 103,750, which gave a fair value of \$415.0 million (€353.2 million equivalent)
- €229m senior notes: index 99,966, which gave a fair value of €228.9 million

The carrying value of financial instruments per category is determined as follows:

In € million	2025.12 Carrying amount	Carrying amount of non- financial instruments	Financial instruments by category			Fair Value of financial instruments	Fair Value Level
			Amortized cost	Fair value through OCI	Fair value through P&L

Valuation techniques and significant unobservable inputs for Level 3 instruments

At Group level, Level 3 fair value measurements mainly relate to earn-out and put liabilities arising from business acquisitions, as well as cash-settled Long-Term Incentive Plan (LTIP) liabilities.

Earn-out and put liabilities linked to acquisitions

These liabilities — whether arising from contingent consideration arrangements or employment-related clauses — are measured using the contractual mechanisms defined in the agreements. In most cases, the valuation is based on a multiple of EBIT (or an equivalent performance indicator), determined over several years, adjusted by net debt.

At each reporting date, expected future performance is updated based on the latest management forecasts, and the resulting cash flows are discounted using the Group's WACC.

Changes in the fair value of these instruments are presented in:

- note 7.4 for employment-related arrangements; and
- note 19.5 for contingent consideration related to business combinations.

LTIP cash-settled liabilities

Cash-settled LTIP liabilities (phantom share plans) are measured based on the actual performance achieved and are directly linked to the value of Banijay SAS shares. The fair value of these instruments is determined by an independent valuation expert on an annual basis using multiple valuation techniques, including:

- Discounted Cash Flow (DCF) method,
- Guideline Public Company method, and
- Comparable transactions method

Changes in the fair value of LTIP liabilities are disclosed in note 7.3.2.

Note 25 CASH FLOW STATEMENTS

25.1 Amortization, depreciation, impairment losses and provisions, net of reversals

This adjustment in the Consolidated statement of cash flows comprises amortization, depreciation, impairment losses and provision included in the operating profit, the non-recurring income and expenses and the financial income and expenses for -€165.9 million in 2025 compared to -€182.5 million in 2024.

<i>In € million</i>	Notes	2025.12	2024.12
Depreciation and amortization of intangible assets	15	91.4	108.3
Depreciation and amortization of tangible assets	16	25.3	21.3
Depreciation and amortization of leases	17.1	39.6	42.2
Impairment on financial items		8.7	8.7
Other depreciation and provisions		0.9	1.9
Amortisation, depreciation, impairment losses and provisions, net of reversals		165.9	182.5

25.2 Other adjustments

Other adjustments in the cash flows statement mainly include the restatement of:

- unrealized and realized foreign exchange gains or losses: -€44.4 million in 2025 vs. -€2.1 million in 2024⁽¹⁾
- certain elements that are restated from the cash flows from operating activities to be presented under investing or financing activities (e.g. transaction costs).

(1) Offset in the line "change in fair value instruments by fair value derivatives variation (Note 11)"

25.3 Purchase of property, plant and equipment and of intangible assets

The Purchase of property, plant and equipment and of intangible assets on cash flows statement mainly includes:

- Investments of intangible assets (Note 15) for -€83.6 million in 2025 (-€100.6 million in 2024)
- Purchase of property, plant and equipment (Note 16) for -€33.1 million in 2025 (-€24.8 million in 2024)
- A/cs payable on tangible and intangible assets and content assets purchased for -€9.8 million in 2025 (€23.7 million in 2024)

25.4 Purchase of consolidated companies, net of cash acquired

The purchase of consolidated companies, net of cash acquired in the Consolidated statement on cash flows statement mainly includes:

- Cash consideration includes both current year acquisitions, and deferred payments related to prior year acquisitions for -€17.3 million in 2025 (-€27.7 million in 2024)
- Acquisitions costs for -€2.4 million in 2025 (-€7.3 million in 2024)
- Cash received following the acquisition of entities for €3.6 million in 2025 (€2.3 million in 2024)
- Earn-out and put payments for -€25.3 million in 2025 (-€13.6 million in 2024)

25.5 Investing in associates and joint ventures

The Investing in associates and joint-ventures caption includes the acquisition/investments in associates and joint ventures for -€0.8 million presented as follow:

<i>In € million</i>	2025.12	2024.12
Hyphenate Media Group		(4.6)
Esmeralda		(2.6)
Dynamics Ally Pictures	(0.8)	(0.7)
Others	(0.1)	(0.6)
Investing in associates and joint-ventures	(0.8)	(8.5)

In 2024, compare to note 18.1, the difference between "Capital increase" (€13.9 million) and the cash flow line "Investing in associates and joint-ventures" (€8.5 million) correspond to capitalization of debt (€5.4 million) (o/w Greenboo).

25.6 Increase and decrease in financial assets

The financial assets caption in the Consolidated statement of cash flows for -€2.3 million in 2025 (-€14.1 million in 2024) mainly includes:

- The current accounts transactions with associates and joint ventures for -€4.1 million in 2025 mainly due to the current account with BD4 in USA (in 2024, were -€15.1 million of current accounts transactions with associates and joint ventures, mainly due to Shine Fictions before integration)

25.7 Change in capital

The flow "change in capital" in 2025 corresponds to capital increase of €20.3 million following the exercise of warrants.

Note 26 MANAGEMENT OF MARKET RISK

26.1 Credit risk

Credit risk arises when a counterparty to a transaction is either unable or unwilling to meet its obligations, leading to a financial loss for the Group. This risk is inherent across all business activities.

To mitigate credit risk, the Group engages only with reputable and financially sound third parties. Receivables are closely monitored on a regular basis, ensuring that the Group's exposure to bad debts remains limited.

The credit risk associated with cash deposits at banks is considered minimal. The majority of the Group's cash is held with high-quality financial institutions that maintain a credit rating of A or higher.

26.2 Interest rate risk

The Group's objective in managing interest rate risk is to reduce its net exposure to rising interest rates. As described in Note 23.5 – Derivatives, the Group uses interest rate derivatives designated as cash flow hedges in accordance with IFRS 9 in order to mitigate variability in cash flows arising from variable-rate debt.

To this end, business units exposed to floating-rate financing enter into derivative financial instruments such as interest rate swaps, caps and collars, which protect them against significant fluctuations in interest rates.

The Group's exposure to interest rate fluctuations mainly relates to the following:

- The \$560 million senior term loan B agreement depends on SOFR 1 month rate (remaining capital \$495 million). On this specific loan, Banijay has taken out an interest rate hedge by means of:
 - An interest rate swap converting the variable SOFR-based rate into fixed rates of approximately 3.39% for \$438 million and 3.42% for \$55 million, both effective until March 2028.
- The €555 million term loan B agreement depends on EURIBOR 3 months rate. On this specific loan, Banijay has taken out an interest rate hedge by means of:
 - An interest rate swap converting the variable Euribor-based rate into a fixed rate of approximately 2.2% for €453 million, and a collar setting the interest rate between 2.8% and 3.3% for €102 million, both effective until March 2028.
- The €400 million term loan B agreement depends on EURIBOR 3 months rate. On this specific loan, Banijay has taken out an interest rate hedge by means of:
 - An interest rate collar setting the Euribor-based rate between approximately 2.11% and 2.75% for €400 million, effective until April 2030.

26.3 Currency Risk

Currency risk management is handled independently by each subsidiary.

As explained in note 23.5– Derivatives, the Group uses both FX Swaps (not designated in a hedging relationship) and a cross-currency swap designated as a hedging instrument under IFRS 9, in order to mitigate exposures arising from its multi-currency operations.

The Group operates in several countries and may be exposed to fluctuations in foreign exchange rates that could have an impact on its net income and financial position expressed in euros.

The main foreign exchange risk is transactional, mainly related to the US dollar and the pound sterling:

- As of 31 December 2025, the percentage of sales made in USD represented 11.5% of the Banijay's consolidated revenue (15.6% in 2024). A decrease of 5% in the exchange rate in USD would have an impact on the consolidated revenue of -€18 million in 2025 (-€25 million in 2024) and an impact on the consolidated equity of +€27 million. Conversely, an increase of 5% in the exchange rate in USD would have an impact on the consolidated revenue of +€20 million (+€27 million in 2024) and an impact on the consolidated equity of -€30 million.
- As of 31 December 2025, the percentage of sales made in GBP represented 21.4% of Banijay's consolidated revenue (18.1% in 2024). A decrease of 5% in the exchange rate in GBP would have an impact on the consolidated revenue of -€33 million (-€29 million in 2024) and an impact on the consolidated equity of +€4 million. Conversely, an increase of 5% in the exchange rate in GBP would have an impact on consolidated revenue of +€37 million (€32 million in 2024) and an impact on the consolidated equity of -€5 million.

Other currencies are less significant. For example, sales in AUD amounts to 4.3% of total sales, and a related decrease (or increase) of 5% in the exchange rate in AUD would have an impact respectively on the consolidated revenue of -€7 million (or +€7 million) in 2025, and an impact on the consolidated equity of -€1 million (or +2 million).

In addition, and as detailed in note 23.5, the Group has entered into a cross-currency swap (CCS) related to its USD Senior Secured Notes (SSN), in order to hedge foreign exchange risk arising from principal and interest payments denominated in US dollars. This instrument is designated as a hedging instrument under IFRS 9, with fair value changes allocated between profit or loss and OCI depending on whether they relate to accrued vs. future interest cash flows.

26.4 Liquidity risk

The Group managed its liquidity risk through a monthly cash flow analysis for the next year and then each year for the duration of its business plan.

Annual forecasts include an organic growth and an analysis of the effect of potential external growth on revenue, adjusted EBITDA and net financial debt.

Banijay Group maintains adequate reserves of cash and short-term deposits to meet its liquidity needs. As of 31 December 2025, undrawn committed lines of credit, overdrafts and other borrowings have been obtained for a total of €408.3 million.

The Group has also set up several liquidity concentration pools around the main business regions (Europe, United States, United Kingdom and Scandinavia). During 2025, approximately 84.7% (82.8% in 2024) of the business's revenue was covered by these mechanisms. Consequently, the business's organic growth, its working capital requirements and its financing (including the payment of debts or option debts) are ensured in particular by the cash flows generated by the business units.

In addition, as part of its financing, the Group business is subject to financial covenants, namely concerning RCF (revolving credit facility) in the event of a drawdown of 40%. The ratio is based on Senior Secured Net Leverage (ratio between (i) the sum of Banijay senior secured notes, earn out debt minus cash and (ii) the sum of Banijay Adjusted EBITDA, shareholder fees and proforma impact from acquisitions) and its level should not exceed 6.50x. In December 2025, although the RCF is not drawn, such financial covenants are satisfied.

26.5 Capital risk

The Group manages its statutory equity and its liquidity to be able to distribute a dividend to its shareholders in accordance with its dividend policy.

Note 27 RELATED PARTIES

The consolidated accounts include operations carried out by the group in the ordinary course of its business with related parties. These transactions are made at the market price.

Related parties consist of:

- Group LOV's controlling shareholders: Banijay Group, Financière LOV Group and LOV Group Invest; and affiliates such as Betclac and La Résidence du Roy
- Other shareholders, notably: Group Vivendi's subsidiaries, Fimalac, De Agostini, Monte-Carlo SBM International, Pegasus Founders, Sponsors and Banijay Group's key managers;
- Associates and joint ventures; and
- Key management personnel.

27.1 Transactions with parent's companies

The Group recorded several transactions with its parent's companies and its subsidiaries that are not part of the Group's consolidation scope, as follows:

<i>In € million</i>	Financière LOV	
	2025.12	2024.12
Net financial assets / financial liabilities / Provisions	-	-
Net trade receivables / payables	(5.0)	0.1
Operating income / Operating expenses	(11.8)	(11.6)
Financial income / expenses	-	-

<i>In € million</i>	Banijay Group N.V

27.3 Transactions with Associates and JV

Transactions with the Investments in associates and joint ventures are listed here after:

<i>In € million</i>	Associates and joint ventures	
	2025.12	2024.12
Net financial assets / financial liabilities / Provisions ⁽¹⁾	29.8	47.2
Net trade receivables / payables	(0.0)	(0.0)
Operating income / Operating expenses	(0.3)	1.8
Financial income / expenses	(0.2)	0.7

⁽¹⁾ 2024 amended figures

27.4 Key Management Personnel compensation

Key management personnel who has the authority and responsibility for planning, directing and controlling the activities, directly or indirectly, is the CEO of Banijay Group (position currently occupied by Marco Bassetti). The remuneration of the CEO is not disclosed since it would lead to disclose an individual compensation.

Note 28 OFF-BALANCE SHEET COMMITMENTS

As of 31 December 2025, the off-balance sheet commitments were updated compared to 31 December 2024 as follows:

<i>In € million</i>	2025.12	2024.12
Commitments given*	16.1	58.4
Credit Lines	408.3	356.4
Commitments received	408.3	356.4

* In accordance with the applicable clauses of the shareholders' agreement, Banijay has exercised the contractual provisions resulting in the cessation of its financing commitments for future investments relating to Hyphenate Media Group.

Banijay has guaranteed:

- Hyphenate Media Group's payment obligations under a credit facility agreement, in its capacity of Borrower for €6.0 million at end of December 2025.
- Its subsidiaries payment obligations for production purposes for €7.5 million

The commitments received refer to confirmed credit lines not drawn.

Guarantors & Securities Pledges

The Group has pledged shares of its subsidiaries for the benefit of (i) its noteholder under the Senior Secured Notes Indenture dated September 19, 2023, with Banijay Entertainment SAS as Senior Secured Notes Issuer and (ii) its bank pooling under the Senior Facilities Agreement dated February 7, 2020, as amended and restated, latest on 24 October 2025.

The shares of the following companies are pledged as collateral:

Banijay Entertainment SAS, Adventure Line Productions SAS, H2O Productions SAS, Banijay France SAS, Banijay Media Ltd (Ex Zodiak Media Ltd), Banijay Rights Ltd, Bwark Productions Ltd, Castaway Television Productions Ltd, RDF Television Ltd, Banijay US Holding Inc. (formerly named Banijay Group US Holding Inc.), Banijay Entertainment Holdings US Inc., Bunim-Murray Productions Inc., Bunim-Murray Productions LLC., M Theory Entertainment, Inc., Mobility Productions, Inc., Endemol US Holding Inc., Trully Original LLC., Screentime Pty Limited ; Endemol Shine Australia Pty Ltd., Banijay Benelux Holding B.V (EX: AP NMT JV NEWCO B.V), Endemol Shine IP B.V; Endemol Shine Nederland Holding B.V (now Banijay Benelux Holding B.V), Endemol Shine Nederland B.V.

Note 29 SUBSEQUENT EVENTS

In January 2026, the French unscripted production company H2O Productions was sold to its founder, Cyril Hanouna.

To the best of Group management's knowledge, no other significant events occurred between the reporting date and the 17th of February 2025, when the consolidated financial statements were finalized

Note 30 STAFF

On December 31, 2025, 3,793 employees are working as permanent staff in the group compared to 3,768 employees on December 31, 2024 (amended figures).

Note 31 FEES EXPENSED TO AUDITORS

In € million	Audit fees			Non-audit fees (performed by auditors)			Total fees
	Ernst & Young	Others	Total Audit fees	Ernst & Young	Others	Total non-audit fees	
2024	4.8	0.7	5.5	0.3	0.2	0.5	5.9
2025	4.3	0.4	4.7	0.3	0.1	0.5	5.2

Note 32 CONSOLIDATED COMPANIES

The table below presents the percentage of ownership interest in the main Banijay's subsidiaries, associates and joint ventures as December 31, 2025, and December 31, 2024.

Percentages of interests disclosed above correspond to the current legal perimeter. At consolidation level, the presence of put and call options over minority may affect upwards the interest rate applied.
