The transaction is expected to generate approximately €50 million of annual cost synergies, with the full run rate anticipated within 12 months following completion.

- *Sports betting & Gaming*

The **Sports betting & Gaming business** amounted to 46.1% of the Group's consolidated revenues for the nine-month ended 30 September 2026, compared to 35.1% for the nine-month ended September 2025, reflecting the integration of Tipico from April 2026.

	Nine-month ended 30 September		
	2026	2025	% Change
Sportsbook	1,520	857	77.4%
Games	354	179	97.6%
Poker	97	76	26.8%

The Sports betting & Gaming business primarily generates its revenues from the sports betting segment, operated both online and, following the acquisition of Tipico Group on 23 April 2026, through a retail network of more than 1,250 points of sales in Germany and Austria.

Revenue sustained double-digit growth by +12.7% at constant currency and proforma basis[1] (+76.0% at reported rates) to €1,989 million across all products. Growth was supported by the continued expansion

[1] *Growth at constant exchange rates and current scope: restated from 2025 contribution of Bet-at-Home and H2O and including 9M contribution of Tipico and All3Media in 2025 and 2026.*

of the player base, with UAPs up +23.9% year-on-year, reflecting strong acquisition during the FIFA World Cup and continued player engagement across Banijay Gaming's ecosystem.

The strong expansion of the player base during the FIFA World Cup also supported cross-selling across the broader product offering, reinforcing the benefits of Banijay Gaming's diversification strategy.

Sportsbook revenue increased by +10.8% year-on-year on a constant currency and pro forma basis, supported by UAP growth across all geographies. Performance was particularly strong in July, driven by the final stages of the FIFA World Cup, before less favourable sports results for operators weighed on performance in August and September, particularly at the start of the UEFA Champions League.

Games, poker and turf combined revenue increased by +20.4% year-on-year on a constant currency and pro forma basis, driven notably by strong momentum in casino and poker. This performance further highlights the benefits of Banijay Gaming's geographic and product diversification, providing additional sources of growth while mitigating the impact of short-term volatility in sportsbook results.

- *Entertainment & Live*

The **Entertainment & Live business** amounted to 53.9% of the Group's consolidated revenues for the nine-month period ended 30 September 2026, compared to 64.9% for the nine-month ended 30 September 2025.

	Nine-month ended 30 September		
	2026	2025	% Change
Production	1 649	1,614	2.2%
Distribution	299	232	29.3%
Live & Other	380	248	53.2%
Banijay Entertainment & Live	2 328	**2,094**	11.2%

Revenue totaled €2,328 million, up by 1.6% at constant currency and pro forma basis[1] (11.2% on a reported basis) compared to the nine-month ended 30 September 2025 reflecting strong growth in Live experiences & other partly offset by anticipated seasonality in production and distribution.

Production revenue was down (3.0)% at constant currency and pro forma basis(1) (up by 2.2% on a reported basis) to €1,649 million. This performance continued to reflect the anticipated phasing of deliveries and a tough comparison basis in Q2 and Q3 2025 which benefited from major deliveries including The Buccaneers and House of Guinness. On a pro forma basis, All3Media's contribution includes solid show deliveries in 9M such as the Wanted Man, the War or The Grand Tour.

This more balanced delivery profile demonstrated one of the benefits of the combination of Banijay Entertainment and All3Media, effective since 9 July 2026, creating a larger and more diversified global entertainment platform, with a broader content portfolio and delivery schedule. The combined business operates across 25 territories, brings together more than 170 production and live companies and is supporting a library of more than 265,000 hours of premium content.

Live experiences & other revenue was up 45.6% at constant exchange rate and pro forma basis[1] (+53.2% at reported rates) to €380 million.

[1] *Growth at constant exchange rates and current scope: restated from 2025 contribution of Bet-at-Home and H2O and including 9M contribution of Tipico and All3Media in 2025 and 2026.*

This performance was driven by the strong activity around ceremony production during major international sporting events, including the Milano Cortina 2026 Olympic Winter Games and the FIFA World Cup 2026.

Momentum also remained strong across Banijay Live's proprietary franchises, notably with the continued international expansion of Luminiscence, illustrating the Group's ability to develop and scale proprietary entertainment concepts across multiple territories.

Balich Wonder Studio also continued to expand its international footprint, notably with its expansion in North America, supporting its ambition to build a global creative platform across sport, culture and entertainment. The combination of Banijay Entertainment and All3Media creates a larger global entertainment platform, to unlock new growth opportunities, enhance value creation and generate c.€50 million of cost synergies one year after closing. Leveraging complementary creative capabilities, a broad talent network and a library of more than 265,000 hours of premium content, the combined entity is well positioned to further scale its global reach and strengthen its market leadership.

(1) Fair value adjustment on Banijay Entertainment $500 million Term Loan as the refinancing was qualified as a modification of the existing debt.

For the nine-month period ended 30 September 2026, net financial result was an expense of -€248 million, compared to an expense of -€182 million for the same period in 2025. This amount comprises:

- Cost of net debt amounting to -€239.0 million, compared to -€144.6 million for the nine-month period ended 30 September 2025. The increase of €94.4 million was mainly driven by (i) the financing completed at Sports Betting & Gaming level, including the issuance of €1,000 million Senior Secured Notes in January 2026, a €1,500 million Term Loan B and a $750 million Term Loan B both in April 2026, which generated additional interest expenses of €92.6 million,(ii) the new €750 million Term Loan B at Banijay Entertainment & Live level. This impact was partially offset by gains on assets contributing to net financial debt of €12.7 million, mainly reflecting interest income earned on short-term investments.

[1] *Betting tax rate increase in France in July 2025 and in Austria in April 2025 for sport betting and January 2026 for games*
[1] *Growth at constant exchange rates and current scope: restated from 2025 contribution of Bet-at-Home and H2O and including 9M contribution of Tipico and All3Media in 2025 and 2026.*

- Other financial income and expenses amounting to -€9 million, compared to -€37 million for the nine-month period ended 30 September 2025, representing a favourable variation of €28 million. This improvement mainly reflects:

    - A net foreign exchange gain of €0.4 million, compared to a net foreign exchange loss of €4.5 million in the prior-year period. This impact should be analyzed on a combined basis with the mark-to-market effect on foreign exchange derivative instruments, comprising for nine month period a €16.2 million gain on foreign exchange derivatives, partially offset by -€15.8 million of realized and unrealized foreign exchange losses on receivables and payables, notably relating to the USD-denominated Senior Secured Notes;

    - The change in fair value of financial instruments amounting to an income of €4.5 million, compared to an expense of €16.4 million in the prior year period. This mainly comprised €22.7 million reflecting a positive fair value adjustment on other securities, partially offset by €18.2 million of discounting expenses related mostly to earn-out and option obligations.

    - The interests on lease liabilities of €11.0 million. An increase of €5.7 million mainly due to Tipico Acquisition.

The Group's total bank indebtedness and other as of 30 September 2026, amounted to €7,090 million, compared to €3,057 million as of 31 December 2025. The variation by business is explained as follows:

- €3,364 million for Banijay Entertainment as of 30 September 2026 compared to €2,480 million as of 31 December 2025 (+€884 million), mainly explained by (i) the Combination of Banijay Entertainment and All3Media, with the refinancing and the new Term Loan Facility for a total impact net of issuing cost of €754 million and (ii) operational banks loans related mainly to All3Media subsidiaries for +€102 million and (iii) accrued interests.

- €3,737 million for Banijay Gaming as of 30 September 2026, compared to €597 million as of 31 December 2025 (+€3,140 million). This variation mainly reflects the issuance of Senior Secured Notes and Term Loan Facilities (EUR and USD) for a total gross amount of €3,139 million as a part of Tipico acquisition, net of issuance cost.

- €284 million for Holding as of 30 September 2026, stable compared to €283 million as of 31 December 2025.

Net Debt[1] increased from €2,573 million as of 31 December 2025 to €5,788 million as of 30 September 2026. The overall increase of +€3,215 million is mostly due to Adjusted Operating Free cash flow of the period (-€477 million), offset by LTIP paid during the period (+€72 million), the impact of Tipico acquisition (+€2,761 million), the All3Media cash received (-€625 million) and the integration of All3Media net debt (+€434 million), the impact of change in financial assets (+€27million), the interests of the period (+€239 million), the dividend paid (+€659 million), and foreign exchange impact and

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

Note 1 BUSINESS PRESENTATION

1.1 Presentation of the business

Banijay Group N.V., a Dutch-based holding, hereafter "Banijay Group" or the "Company" holds and fosters the development of its controlled subsidiaries. It encompasses two main businesses operating in the Entertainment & Live business and the Sports betting & Gaming business.

The Entertainment & Live business, hereafter "Banijay Entertainment & Live", is mainly represented by Banijay Entertainment UK Limited and its subsidiaries since 9 July 2026 after the combination with All3Media group (refer to Note 4) and was previously represented by Banijay SAS and its subsidiaries until 9 July 2026, which operate in the production of audiovisual programs, distribution and marketing of intellectual property rights in relation to audiovisual, digital contents and/or formats and the production of live experiences.

The Sports betting & Gaming business, hereafter "Banijay Gaming" is represented by Banijay Gaming SAS (formerly named Betclic Everest Group SAS until 23 April 2026) and its subsidiaries, which operates through its subsidiaries in the European and African sports betting (online and shops), casinos and games (online and shops), online poker and online turf. On 23 April 2026, Banijay Group completed the acquisition of Tipico Group Limited, bringing together the Betclic, Tipico and Admiral brands within Banijay Gaming. As a result, Tipico Group Limited and its subsidiaries have been fully consolidated in the Group's financial statement as from 23 April 2026 (refer to Note 3 – Business combinations)

These two businesses together compose the Group, hereafter the "Group".

Banijay Group N.V. is ultimately controlled by Lov Group Invest SAS, a private French company.

1.2 Seasonal activity

Banijay Entertainment & Live production operations can be impacted by the timing of delivery of both scripted and non-scripted productions (and thus affecting the level of revenue and work in progress). The distribution activity tends to present a more important seasonality in the last quarter of the year but is also impacted by the timing of recoupment of its distribution advances. The live experiences activity can be impacted by the seasonality of major events such as international ceremonies (Olympics, FIFA World Cup).

The Sports betting & Gaming business primarily generates its revenues from the sports betting segment, operated both online and, following the acquisition of Tipico Group on 23 April 2026, through a retail network of more than 1,250 points of sales in Germany and Austria.

Sports betting volumes follow the various sports calendars. With football being the main attractive sport within the business, the sports betting volumes tend to follow its calendar, typically starting in August and ending in May. Volumes are consequently higher during this period. The organization of international events such as the FIFA World Cup or the European Football Championship, which usually take place during the summer break, leads to additional significant betting and players activity.

In games segments, business volumes remain relatively stable throughout the calendar year, with an increase in activity during the winter season.

Regarding sports betting, being fixed odds betting, its revenues rely on the sports betting margin, which represents the difference between bets and winnings. The margin is highly correlated with the results of the favorite teams, causing short-term fluctuations that directly impact positively or negatively the financial results. However, being

driven by its statistical approach, the sport margin will always converge on the long term to the applied sport pricing strategy.

It is important to note that in jurisdictions where betting taxes are applied on the wagered amounts (e.g. Portugal, Germany or Poland), any adverse impact on the sports betting margin may further affect profitability and subsequently the overall results of operations and the business.

Note 2 BASIS OF PREPARATION

2.1 Statement of compliance

The unaudited condensed consolidated interim financial statements for the nine-month period ended 30 September 2026 have been prepared in accordance with IAS 34 – Interim Financial Reporting of the International Financial Reporting Standards (IFRS) as adopted by the European Union (EU) and available on the European Commission website.

The unaudited condensed consolidated interim financial statements do not include all the information required for a complete set of financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") as endorsed by the European Union and should be read in conjunction with the consolidated financial statements as of and for the year ended 31 December 2025, that have been authorized for issuance by the Board of Directors at its meeting held on 28 March 2026 and for which an unqualified auditor's opinion was issued by EY Accountants B.V. LLP thereon.

These unaudited condensed consolidated nine-month financial statements were authorized for issue by the Board of Directors 16 November 2026.

All amounts in the unaudited condensed interim consolidated financial statements are presented in millions of Euros with one decimal point, unless otherwise specified. The fact that figures have been rounded off to the nearest decimal point may, in certain cases, result in minor discrepancies in the totals and sub-totals in the tables and/or in the calculation of percentage changes.

2.2 Significant accounting policies

The accounting policies applied in these unaudited condensed consolidated interim financial statements are the same as those applied in the consolidated financial statements as of and for the year ended 31 December 2025, except for the estimation of the income tax expense which is recognized based on management's estimate of the weighted average effective annual income tax rate expected for the full year.

The new and amended standards effective from 1 January 2026 do not have a material effect on the unaudited condensed consolidated interim financial statements.

The unaudited condensed consolidated interim financial statements are presented in euros. Unless otherwise indicated, all amounts are rounded to the nearest hundred thousand euros, rounding differences may occur.

2.3 Accounting standard applied

Standards, amendments and interpretation adopted by the European Union and effective for reporting periods beginning on or after 1 January 2026

The new and amended standards effective from 1 January 2026 do not have a material effect on the unaudited consolidated financial statements.

The following amendments to IFRSs are effective as from 1 January 2026:

Amendments to IFRS 9 and IFRS 7	Amendments to the Classification and Measurement of Financial Instruments

These amendments did not impact the interim condensed consolidated financial statements for the nine-months ended 30 September 2026.

Standards, amendments and interpretation published by the IASB but not yet adopted by the European Union

Certain new accounting standards and amendments have been published by the IASB but are not yet adopted by the European Union, and have not been early adopted:

IFRS 18	Presentation and Disclosure in Financial Statements	1 January 2027
IFRS 19	Subsidiaries without Public Accountability: Disclosures	1 January 2027

The analysis of the impact of applying IFRS 18 on the presentation of its consolidated financial statements is ongoing. The group does not expect the application of the other standards and amendments set out above to have a material impact.

2.4 Scope of consolidation

The legal entities and sub-groups forming part of the Group are as follows:

		% of ownership interest	
Name of the legal entity or sub-group	Country of incorporation	30 September 2026	31 December 2025
Banijay Group N.V.	The Netherlands	*Parent company*	*Parent company*

Fonds de dotation Banijay Group	France	100.00%	*100.00%*
FLE Holding 1 SAS	France	100.00%	*100.00%*
Banijay Experience SAS	France	100.00%	*100.00%*
The Independents Group	Luxembourg	*13.82%*	*14.05%*

All companies and sub-groups in the table above are fully consolidated except The Independents which is in equity method. The sub-groups also have interests in associates and joint ventures.

The change in the Group's percentage of ownership in the Sports betting & Gaming sub-group, from 94.60% at 31 December 2025 to 66.94% at 30 September 2026, results from the completion of the acquisition of Tipico Group Limited on 23 April 2026 (refer to Note 3).

The change in the Group's percentage of ownership in the Banijay Entertainment and Live sub-group, from 97.86% at 31 December 2025 to 50% at 30 September2026, results from the combination of Banijay Entertainment with All3Media group (refer to Note 4).

2.5 Significant assumptions and estimates

The preparation of these unaudited condensed consolidated interim financial statements requires the Group's management to make assumptions and estimates that may affect the application of the accounting methods, and the reported amounts of assets and liabilities, as well as certain income and expenses for the period. In addition, with those described in the consolidated financial statements as of and for the year ended 31 December 2025, significant assumptions and estimates include the income tax, the debt component of the hybrid instrument related to the preferred shares of the Tipico Founders, as well as the Purchase price allocation to be performed in connection with the Tipico acquisition.

2.6 Going concern

The management assessed the Group's ability to continue as a going concern when preparing the consolidated financial statements.

Balance sheet

As of 30 September 2026, the equity continues to increase to a total amount of €2,811.8 million compared to €144.2 million, as of 31 December 2025. In addition, the current part of the financial liabilities is covered by the current part of the financial assets and cash and cash equivalents held by the Group.

Net result

The result continues to turn positive again in the nine-month period of 2026 to €71.3 million compared to €128.9 million in the nine months ended 30 September 2025.

Liquidity / Forecast

In terms of liquidity, the management has performed a monthly cash flow forecast for the next twelve months. This forecast includes an organic growth with a high degree of certainty due to the group activity, dividend cash outflows and repayment of borrowings and other financial liabilities. This forecast confirmed the absence of solvency risk and that the group is confident in its capacity to cover its needs.

As described in note 3.3, On 21 January 2026, Banijay Gaming realised the successful pricing of a Senior Secured Notes and Term Loan Facilities (EUR and USD) for a total amount of €3,139 million. An additional Revolving Credit Facility was also made available for €70 million. In addition, on 23 January 2026 a hedging contract was implemented to secure the variable rate and hedge currency risk.

The proceeds of this financing have been used to (i) finance the acquisition of a share capital of Tipico Group Limited, (ii) refinance some of Tipico Group Limited's existing debt and (iii) pay certain costs, fees and expenses incurred, notably in connection with the acquisition.

As described in note 4.3, on 2 July 2026, Banijay Entertainment successfully raised a new 7-year €750 million Term Loan B facility, extended and repriced its existing €565 million Term Loan B facility and repriced its existing $500 million Term Loan B. The proceeds of the new facility have been used in July 2026 in connection with the business combination with All3Media, including the refinancing of All3Media's outstanding senior facilities, the payment of transaction fees and certain dividends. In addition, Banijay Entertainment has increased its Revolving Credit Facility to €300 million concurrently with the completion of the business combination.

As part of the combination of Banijay Entertainment with All3media, the transaction terms result in a total cash paid to Banijay Group of €801 million, including €625 million paid by RedBird IMI and a €176 million pre-closing dividend distributed by Banijay Entertainment to Banijay Group prior to completion.

In addition, there is no breach of financial covenants to be reported.

Sensitivity test

As of 31 December 2025, the Group also modelled a scenario assuming a decrease of 10% of activity in 2026 and 2027 compared to the budget 2026 and Business plan 2027 to assess whether there is sufficient liquidity position. In this scenario, the Group would have enough liquidity and financing facilities to continue its operations. A stress test to a decrease of activity by 15% was also performed and lead to the same conclusion.

As of 30 September 2026, we ensured that the main transactions of the period does not change the conclusion for this test.

Other lines of credit

In addition, as of 30 September 2026, undrawn committed lines of credit, overdrafts and other borrowings amount to €430 million.

The Entertainment & Live business is subject to financial covenants, namely concerning RCF (revolving credit facility) in the event of a drawdown of 40% .

The Holding and Sports betting & Gaming are also subject to financial covenants, respectively namely concerning RCF (revolving credit facility) and the Term Loan B.

As of 30 September2026, the revolving credit facilities of Sports Betting & Gaming and Entertainment & Live remained fully undrawn. The financial covenants were nonetheless satisfied.

Conclusion

Based on the above, management considers that the Group has the financial resources necessary to continue operations for at least the next 12 months, and that there are no material uncertainties regarding the Group's ability to continue as a going concern.

- 9 July 2026: Banijay Group completes the combination with All3Media.

2. Description of the acquisition

On 3 March 2026, Banijay Group announced that it had entered into a strategic partnership with RedBird IMI, a joint venture backed by RedBird Capital Partners and the Abu Dhabi-based IMI media group, to combine Banijay Entertainment with All3Media, creating a leading global content production and distribution platform.

Under the transaction structure, Banijay Group and RedBird IMI each hold 50% of the equity in the newly combined entity, which operates under the name Banijay. Banijay Group fully consolidates the entity in its consolidated financial statements.

The transaction is implemented through the roll-over of RedBird IMI's entire stake in All3Media into the combined entity. The transaction terms result in a total cash paid to Banijay Group of €801 million, including €625 million paid by RedBird IMI and a €176 million pre-closing dividend distributed by Banijay Entertainment to Banijay Group prior to completion. The transaction generates approximately €50 million of annual cost synergies, with the full run rate achieved within 12 months following completion.

On a pro forma basis for 2025, Banijay Group (including Tipico) generates revenues exceeding €7.4 billion and Adjusted EBITDA of approximately €1.6 billion.

3. Description of the acquisition financing

On 29 June 2026, Banijay Entertainment and Live announced the pricing of a new €750 million Term Loan Facility as well as the extension and repricing of its €565 million and $500 million term loan facilities, with an effective date on 2 and 3 July 2026. In addition, the Banijay Entertainment Revolving Credit Facility increased to €300 million upon completion of the business combination.

The financing package comprised:

- €750 million term loan B facility maturing in 2033, priced and bearing interest at a rate of three-month EURIBOR plus a 2.75% margin. The proceeds were mainly used to finance the pre-closing dividend of €176 million and refinance certain existing indebtedness of All3Media group.
- €565 million term loan B facility maturing in 2033, priced and bearing interest at a rate of three-month EURIBOR plus a 2.75% margin.
- $500 million term loan B facility maturing in 2033, priced and bearing interest at a rate of one-month SOFR plus a 2.25% margin.
- An additional multicurrency Revolving Credit Facility of €170 million reaching a total amount of €300 million (equivalent).

The amendments to the €565 million term loan b and $500 million term loan b facilities were assessed under IFRS 9 standard to determine whether they constituted a modification or an extinguishment of the existing debt, including application of the 10% test. Based on this assessment, the refinancing was accounted (i) as a modification

of the existing financial liabilities for the $500 million term loan b facility and (ii) as a derecognition of the existing financial liability and recognition of a new financial liability for the €565 million Term Loan B facility.

4. Detail of the business combination

Following completion of the combination of Banijay Entertainment and All3Media, Banijay Group and RedBird IMI each hold 50% of the combined entity. Upon completion of the combination, a shareholders' agreement was signed between Banijay Group and All3Media's other shareholders to set forth the principal terms governing the management, shareholding structure and transfer of shares. The Banijay Entertainment Shareholders' Agreement also provides for escalation and deadlock resolution mechanisms in respect of certain key decisions, with Banijay Group having the final say over certain decisions, including the appointment of the CEO of the combined entity. Banijay Group continues to fully consolidate the results of the combined entity.

Following completion, Banijay Entertainment UK Limited became a new intermediate holding company between Banijay Group N.V. and Banijay SAS.

All3Media is qualified as a business as defined in IFRS 3 Business Combinations and the acquisition has been accounted for using the acquisition method.

The total purchase consideration amounts to €866 million and consists entirely of Banijay Entertainment CombinedCo shares, valued by reference to the fair value of the respective equity interests in Banijay Entertainment, Live and All3Media. Acquisition-related costs are estimated at approximately €44 million.

The provisional fair values of the identifiable assets and liabilities of All3Media at the date of acquisition is:

Note 5 OTHER SIGNIFICANT EVENTS THAT OCCURRED IN THE NINE-MONTH PERIOD ENDED 30 SEPTEMBER 2026

5.1 Holding

The Independents

After careful consideration, and discussion with its new partner for Entertainment and Live, Redbird IMI, Banijay Group's Board of Directors has decided not to exercise the option to increase its shareholding in The Independents. The Group's priority is to focus on the integration of All3Media and Tipico and the execution of its strategic roadmap. Banijay remains a minority shareholder of The Independents, and will continue to support the company, which has successfully developed its leadership position in the global luxury sector.

Exceptional distribution of c.€400 million and related adjustments following All3Media closing

On 19 August 2026 (payment date), Banijay Group realized an exceptional distribution of c.€0.93 per share to Banijay Group's shareholders, following the completion of the combination of All3Media and Banijay Entertainment and the receipt of c.€625 million in cash proceeds from RedBird IMI in that context. The distribution resulted in corresponding adjustments to the conversion ratio and trigger prices of the Special Shares, as well as to the exercise and redemption trigger prices of the Founder and Public Warrants, in accordance with their respective terms. Further information is available in Banijay Group's press release dated 19 August 2026.

5.2 Entertainment & Live

Disposal of H2O

In January 2026, the French unscripted production company H2O Productions was sold to its founder, Cyril Hanouna (directly and indirectly through his holding company). In that context, on 16 January 2026, Banijay Group received 1,000,000 of its own shares from Cyril Hanouna and his holding company at €8.10 per share (i.e. a total amount of €8,100,000), corresponding to their opening market price on that date representing less than 0.1% of the share capital of Banijay Group. The result of the disposal is not significant.

Financing of All3Media Combination

The Group announced on 29 June 2026 the successful pricing of a new Term Loan B with an effective date on 2 and 3 July 2026. For more information, refer to the Note 4.

Middle East conflict

The Group is closely monitoring developments related to the ongoing geopolitical tensions in the Middle East. The Group has a limited exposure to the region, primarily through its content production and distribution activities.

For the period ended 30 September 2026, revenues generated in the Middle East amounted to approximately €83.0 million, representing 3,57% of total Banijay Entertainment & Live consolidated revenue.

Given the evolving nature of the situation, the Group continues to monitor developments and their potential impacts on its operations and financial performance.

5.3 Sports betting & Gaming

Repricing of Term Loan B €600 million

In January 2026, Betclic completed the repricing of its €600 million Term Loan B, resulting in a 25bps reduction of the applicable margin grid, from 2.75%–3.25% to 2.50%–3.00%, reflecting the group's strong credit profile and favorable market conditions.

Financing of Tipico Group Acquisition

The Group announced on 21 January 2026 the successful pricing of a notes offering as part of the €3,139 million financing. For more information, refer to the Note 3.

Cross Currency Swap on $750 million Term Loan B

To hedge the currency and interest-rate risks associated with the USD 750 million acquisition facility, the Group entered into two cross-currency swaps. The swaps convert the USD floating-rate debt into fixed-rate euro exposure, using an average EUR/USD rate of approximately 1.1731 and an average fixed euro rate of 5.2506%. The maturity date is 31 March 2030.

JOA group acquisition

On July 6, 2026, Banijay Gaming announced the signing of an agreement to acquire 100% of JOA, the second-largest casino operator in France by number of venues. The transaction is expected to strengthen the Group's omnichannel gaming offering by combining its online gaming and sports betting activities with JOA's network of 33 casinos. The French Competition Authority and the French Ministry of the Interior have cleared this acquisition, which expected to be completed before year-end, subject to the satisfaction of the remaining casino gaming regulatory approvals.

Note 6 SEGMENT INFORMATION

Adjusted EBITDA

The Group considers Adjusted EBITDA to be a useful metric for evaluating its operating performance as it facilitates a comparison of its core operating results from period to period by removing the impact of, among other things, its capital structure, asset base and tax consequences. Adjusted EBITDA is a non-IFRS measure and, as a result, these measures and ratios may not be comparable to measures used by other companies under the same or similar names.

Adjusted EBITDA is defined as the Operating Profit for that period excluding restructuring costs and other non-core items, costs associated with the long-term incentive plan within the Group (the "LTIP") and employment related earn-out and option expenses, and depreciation and amortization (excluding D&A fiction and operational provisions).

Those adjustment items include:

- **Restructuring costs and other non-core items**: due to their unusual nature or particular significance, these items are excluded. In general, these items relate to transactions that are significant, infrequent, or unusual. However, in certain instances, transactions, such as restructuring costs, M&A costs or asset disposals, which are not representative of the normal course of business (referred as "non-core items"), may be adjusted although they may have occurred within prior years or are likely to occur again within the coming years. The details of these costs are provided in Note 10.

- **LTIP and other long-term incentive plans**: reference is made to Employee benefits Long-Term Incentive Plans and Employee benefits obligations resulting from a business acquisition arrangement. The details of these costs are provided in Note 9.

- **Depreciation and amortization (excluding first D&A fiction and operational provision)**: depreciation and amortization of software and intangible assets, PPE own property, right-of-use and intangible assets acquired in business combinations. The D&A line in the consolidated statement of income includes D&A on fictions:

    - First D&A fiction are costs related to the first amortization of fiction production which the Group considers to be operating costs at the time of the first delivery of the program; those costs are therefore included in the Adjusted EBITDA.

    - Remaining amortization on fiction being considered as amortization of IP rights, those costs are not included in the Adjusted EBITDA.

The table below presents the reconciliation of operating profit to Adjusted EBITDA for the nine-month periods ended 30 September 2026 and 30 September 2025:

Employee benefits Long-Term Incentive Plans

Certain employees of the Group benefit from several long-term incentive plans (LTIP) whose goal is to share the value created by the Group or one of its subsidiaries.

At Entertainment & Live's level, some of them are settled in shares but are supplemented by a liquidity agreement granted by the relevant intermediate business unit holding, while the remaining are settled in cash. In accordance with IFRS 2, all plans are classified as cash-settled share-based payment transactions.

At Sports betting & Gaming and Holding's level, those plans can either be settled in shares or in cash and are respectively classified as equity-settled or cash settled share-based payment transactions.

Description of the on-going plans:

At Banijay SAS's level, the Group issues to key management free share plans ("**AGA**") and share purchase warrants ("**BSA**").

In addition, Banijay Entertainment & Live issues phantom shares plans to certain directors and employees that require the sub-group to pay the intrinsic value of the phantom shares to the employee at the date of exercise. A summary of the plans' characteristics is presented below:

Plan	Type	Attribution date	Conditions	End of vesting period
Free Share plans (AGA)	Cash-settled	2017 to 2028	Presence and performance	2019 to 2030
Free share plans (AGA)	Cash-settled	From 2017 and renewable yearly	Performance	2026 and renewable yearly
Share purchase warrants (BSA)	Equity-settled	2021	Performance	2025
Phantom shares	Cash-settled	From 2016	Presence and performance	2020 and 2024 2024 and 2028 2026 and 2030 2027 and 2031
Other long-term incentive	Cash-settled	From 2016	Presence and performance	2024 and 2031

At Banijay Gaming level, there are LTI plans and equity instruments that were assimilated to compensation received for goods and services rendered (cash-settled plans) issued to certain managers.

The Group has also reflected in its financial statements the impact of the grant of share-based payments and similar benefits to the Betclic Everest Group founder. From 2023, the Betclic Everest Group founder was entitled to a long term incentive plan subject to performance and presence conditions. In that context, the Betclic Everest Group founder was entitled to an annual cash bonus. The annual cash bonus ended on 31 December 2025 with his resignation as CEO of Betclic Everest Group.

He was also entitled to a long-term Banijay Group N.V. free share incentive plan that has been implemented through the allocation of free shares issued by Betclic Everest Group representing, before completion of the Tipico transaction, 3.3% of the share capital of this company. From an accounting perspective under the specific IFRS 2 rules, this has been treated as a modification of contract with two sub-plans.

The plans regarding each type are summarized below:

Plan	Type	Attribution date	Conditions	End of vesting period
LTI 2023 A	Equity-settled	2023	Presence	2026
LTI 2023 B	Cash-settled	2023	Performance and Presence	2025
LTIP 2024	Cash-settled	2024	Performance and Presence	2029
LTIP 2025	Cash-settled	2025	Performance and Presence	2029
LTIP 2026	Cash-settled	2026	Performance and Presence	2030

At Holding's level, the Group issues to key management free share plans ("AGA") and phantom shares.

The plans regarding each type are summarized below:

Plan	Type	Attribution date	Conditions	End of vesting period
Phantom shares	Cash-settled	2023	Presence and Performance	2027
Free shares plans (AGA)	Equity-settled	2023, 2024, 2025	Presence	2025, 2026, 2027

Measurement of the plans

The Group measured the liability at fair value at the closing date using the same calculation methodology as at the previous closing and based on:

- Updated budget forecasts based on the budget and the business plan adopted as part of the impairment tests;
- Assumptions such as the discount rate (9.76% for Sports betting & Gaming and its subsidiaries and 8.94 % for Sports betting & Gaming in 2025) and the discounts in connection with the contractual clauses of good and bad leaver updated compared to the previous closing.

The Group has recorded liabilities of €205.1 million as of 30 September 2026 (€217.3 million as of 31 December 2025). The Group recorded total expenses of €106.7 million for the period ended 30 September 2026, including an exceptional charge of €81.0 million as part of the modification of Betclic Everest Group founder's contract from an accounting perspective, compared to €61.3 million for the period ended 30 September 2025.

The cash outflows with regards to LTIP amounted to -€71.5 million for the period ended 30 September 2026, compared to -€75.3 million for the period ended 30 September 2025.

Note 10 OTHER OPERATING INCOME AND EXPENSES

Of which other operating expenses	*(168.9)*	*(41.0)*

The variation in other operating income and expenses is mainly attributable to the restructuring charges and other non-core items in first nine months of 2026, which mainly consist of:

(i) Restructuring costs and other non-core items and other operational expenses mainly including expenses with personnel and relocation cost held with the context of the Group's acquisitions occurred during the period in the different subsidiaries;

(ii) M&A project costs occurred during the period and mainly regarding the Tipico Acquisition and All3Media combination.

(1) Fair value adjustment on Banijay Entertainment $500 million Term Loan B as the refinancing was qualified as a modification of the existing debt.

For the nine-month period ended 30 September 2026, net financial result was an expense of -€247.8 million, compared to an expense of -€181.7 million for the same period in 2025. This amount comprises:

- Cost of net debt amounting to -€239.0 million, compared to -€144.6 million for the nine-month period ended 30 September 2025. The increase of €94.4 million was mainly driven by (i) the financing completed at Sports Betting & Gaming level, including the issuance of €1,000 million Senior Secured Notes in January 2026, a €1,500 million Term Loan B and a $750 million Term Loan B both in April 2026, and (ii) the new €750 million Term Loan B at Banijay Entertainment & Live level. This impact was partially offset by gains on assets contributing to net financial debt of €12.7 million, mainly reflecting interest income earned on short-term investments.

- Other financial income and expenses amounting to -€8.8 million, compared to -€37.0 million for the nine-month period ended 30 September 2025, representing a favorable variation of €28.2 million. This improvement mainly reflects:

    - A net foreign exchange gain of €0.4 million, compared to a net foreign exchange loss of €4.5 million in the prior-year period. This impact should be analyzed on a combined basis with the mark-to-market effect on foreign exchange derivative instruments, comprising for nine month period a €16.2 million gain on foreign exchange derivatives, partially offset by -€15.8 million of realized and unrealized foreign exchange losses on receivables and payables, notably relating to the USD-denominated Senior Secured Notes;

    - The change in fair value of financial instruments amounting to an income of €4.5 million, compared to an expense of €16.4 million in the prior year period. This mainly comprised €22.7 million reflecting a positive fair value adjustment on other securities, partially offset by €18.2 million of discounting expenses related mostly to earn-out and option obligations.

    - The interests on lease liabilities amounted to €11.0 million compared to an expense of €5.3 million. The increase of €5.7 million is mainly due to Tipico Acquisition.

Note 12 INCOME TAX

The Group computed its income tax expense for the interim period using the projected effective tax rate method (based on expected tax rate at year end per geographical area) after restating the profit/(loss) before tax from certain selected items with no tax impacts (e.g., discount and revaluation income or expense, tax losses carried forward for which deferred tax assets do not reach the recognition criteria).

Note 13 GOODWILL

Goodwill as of 30 September 2026 is as follows:

30 SEPTEMBER 2026	3,309.3	4,166.7	7,476.0	-	7,476.0

The preliminary goodwill arising from the Tipico acquisition amounts to €3,921.1 million and €738 million from All3Media combination, while the total variation in goodwill between the two dates amounts €4,660.7 million. The increase is therefore mainly explained by the Tipico acquisition and All3Media combination (see note 3 & 4), for which the exercise of purchase price allocation is not yet finalized.

Note 14 WORKING CAPITAL BALANCES

14.1 Trade receivables

The breakdown of trade and other receivables as of 30 September 2026 and 31 December 2025 is as follows:

In € million	30 September 2026	31 December 2025
Trade receivables, gross	635.3	498.5
Trade receivables from providers, gross	79.4	37.6
Total trade receivables, gross	714.7	536.1
Allowance for expected credit loss	(16.9)	(11.2)
TRADE RECEIVABLES, NET	697.8	524.8

Trade receivables from providers (payment service providers) correspond to balances in transit with the payment partners of the Group and which are repatriated to bank accounts manually or automatically. These receivables are considered liquid because they can be transferred in a few minutes or a few days, depending on partners.

The increase in trade receivables is mainly related to the Tipico acquisition and All3Media combination.

14.2 Other non-current and current assets

The breakdown of other non-current and current assets as of 30 September 2026 and 31 December 2025 is as follows:

In € million	30 September 2026	31 December 2025
Trade receivables, LT	116.2	40.9
Income tax receivables, LT	5.1	4.3
Receivables from disposals of assets, LT	(0.0)	0.6
Other, LT	320.2	217.2
OTHER NON-CURRENT ASSETS	441.5	262.9

Trade Receivables increase is mainly due to the acquisition of Tipico and All3Media combination.

Other, LT amount to €320.2 million and mainly refer to the cumulative payment of VAT in respect of income resulting from sports bet placed by players residing in France from the January 2018 till the end of September 2026.

Betclic Everest Group received in December 2021 a notice of adjustment from the French tax authorities for a total amount of €52.4 million (willful misconduct and interest for late payment included) related to the VAT to be collected and paid in respect of income resulting from sports bets placed by players residing in France, for the years 2018 and 2019.

On 13 May 2022, Betclic Everest Group received (i) a rectification on the notice of adjustment from December 2021, decreasing the amount of €52.4 million to €37.3 million (willful misconduct and interest for late payment included) and (ii) a new notice of adjustment from the French tax authorities for a total amount of €25.8 million (willful misconduct and interest for late payment included) related to the VAT to be collected and paid in respect of income resulting from sports bets placed by players residing in France for the year 2020.

On 27 September 2023, the French tax authorities notified Betclic Everest Group of the cancellation of the willful misconduct penalty, for the years 2018 and 2019 only, decreasing the adjustments from €37.3 million to €27.1 million.

In 2024, following discussions, the French tax authorities cancelled also the willful misconduct penalty for the year 2020.

On 24 October 2024, Betclic Everest Group received an adjusted assessment notice for the years 2018, 2019 and 2020. It resulted in a final payment of €45.7 million including interests for late payment.

Betclic Everest Group, with the support of its legal and tax advisers, still considers that the position of the French tax authorities is not in conformity with various general principles of VAT, in the same way as other online gaming operators in France that are part of the association AFJEL.

Betclic Everest Group will challenge this adjustment in France, with the French tax authorities and, if necessary, the French Courts, but also with the Court of Justice of the European Commission if a French Court decides to make a request for a preliminary ruling. No provision relating to this litigation has been recorded.

However, to avoid further similar adjustments from the French tax authorities, Betclic Everest Group has decided to spontaneously pay VAT in respect of income resulting from sports bets placed by players residing in France from 2021 to 2025 for an amount of €169.7 million and continue to proceed accordingly in 2026.

Betclic Everest Group still considers that such VAT is not due and intends to claim repayment of the corresponding VAT spontaneously paid. Consequently, the total amount paid as of September 2026 has been recognized as State receivables toward the French tax authorities in the Financial Statements.

In € million	30 September 2026	31 December 2025
Tax receivables, excluding income tax	101.0	93.0
Grants receivables	180.6	132.4

Receivables from disposals of assets	1.0	1.0
Others	79.6	15.3
OTHER CURRENT ASSETS	**611.6**	**304.7**

As of September 2026, grants receivable amounted to €180.6 million and concerned audiovisual tax credit mostly related to the production of fiction. The increase is mainly due to All3Media combination.

The increase in income tax receivables relates to the Tipico Group, which operates through a two-tier entity structure in Malta. Under the Maltese imputation tax system, the underlying subsidiaries are required to pay income tax at a rate of 35% on their profits. The distribution of dividends out of these taxed profits by the underlying subsidiaries triggers a tax refund at the parent company level.

In € million	30 September 2026	31 December 2025

The Group estimates these debts based on contractual agreements and using assumptions on future profits. The present value of the

scheduled cash outflows is computed using a discount rate. Employees-related long-term incentives include cash-settled share-based payment liability. The variation is linked to the latest acquisition of Tipico and All3Media Combination.

The Group estimates these debts based on contractual agreements and using assumptions on future profits. The present value of the scheduled cash outflows is computed using a discount rate.

- The funding of the entity "Gardenia" (one of the shareholders of K10, the holding company of the TIL group) through Class B preferred shares providing financial rights and certain governance rights to Banijay Events;

The parties shall ensure to comply with all applicable laws, rules and regulations in the Netherlands. When performing or effecting transactions or trade orders in the shares in the execution of this contract, the liquidity provider shall always act without interfering with orderly market operation or misleading other parties.

As of 30 September 2026, the variation in non-current derivative financial assets compared to 31 December 2025 mainly reflects the fair value remeasurement (mark-to-market adjustment) of the Group's interest rate and cross-currency swaps over the period, driven by changes in market interest rate curves and foreign exchange rates.

Fair value hierarchy

IFRS 13 Fair Value Measurement, establishes a fair value hierarchy consisting of three levels:

- Level 1: prices on the valuation date for identical instruments to those being valued, quoted on an active market to which the entity has access;
- Level 2: directly observable market inputs other than Level 1 inputs; and
- Level 3: inputs not based on observable market data (for example, data derived from extrapolations).

  This level applies when there is no observable market or data and the entity is obliged to rely on its own assumptions to assess the data that other market participants would have applied to price other instruments.

Fair value is estimated for the majority of the Group's financial instruments, with the exception of marketable securities for which the market price is used.
